owes a debt of inspiration to a regular article appearing in The Group Circle Consultation Please in which a letter from a practicing group therapist is followed by the responses of two practitioners each offering a solution to the situation described

Complex Dilemmas will expand upon this well received formula grouping situations together into themes examining underlying theory and discussing how ideas about the particular topic have changed over time The book will be divided into seven sections each covering a specific theme such as boundaries enactments projective identification powerful therapist reactions destructive forces in group difficult patients and time limited groups Each section will present three complex dilemmas each of which will be followed by a response from two different clinicians The dilemmas presented will range from common issues confronted to a more atypical dilemma to an extreme example of a dilemma appealing to group therapists of varying expertise
