What others are saying about LEED Green Associate Exam Guide Part I:

Finally, A comprehensive study tool for LEED GA Prep. I took the one day Green LEED Green Associate course and walked away with a power point binder printed in very small print which was missing MUCH of the required information, although I didn't know it at the time. I studied my little heart out and took the test only to fail it by 1 point. Turns out I did NOT study all the material I needed to in order to pass the test. I found this book, read it, marked it up, retook the test, and passed it with a 95%. Look, we all know the LEED Green Associate Exam is new and the resources for study are VERY limited. This one's the VERY best out there, right now. I highly recommend it.

Consultant VA: Complete overview for the LEED Green Associate exam. I studied this book for about three days and passed the exam. If you are truly interested in learning about the LEED system and green building design, this is a great place to start.
