Maurice Tourneur Harry Waldman,2008-11-13 Maurice Tourneur 1876 1961 the French and American director actor and theatrical manager is the focus of this work He began in France during the years 1912 1914 and then spent 1914 1926 in New Jersey and Hollywood directing more than 50 films using his French interests and talents to help shape the industry and bringing stylization to the screen *Performing Neurology* Jonathan W. Marshall,2016-07-13 This text provides a study of Jean Martin Charcot a founding figure in the history of neurology as a discipline and a colleague of Sigmund Freud It argues that Charcot s diagnostic and pedagogic models explaining both how disease is recognized and described and how to teach the act of neurological diagnosis should be considered through a theatrical lens Considering the constitution of the living moving body in terms of performance Charcot created a situation whereby the line between deceptive acting and real pathology scientific accuracy and creative falsehood and indeed between health and unhealth becomes blurred The physician becomes a medical subject in his or her own display transforming medicine into a potentially destabilizing even grand guignolesque discourse Offering a unique insight into Charcot s work his concepts and his methods this text represents a unique and interdisciplinary analysis cutting across the fields of art and neurology **Horror in Silent Films** Roy
