Movies in the Age of Obama David Garrett Izzo, 2014-08-26 The historic election of Barack Obama to the presidency of the United States had a significant impact on both America and the world at large By voting an African American into the highest office those who elected Obama did not necessarily look past race but rather didn't let race prevent them from casting their ballots in his favor In addition to reflecting the changing political climate Obama's presidency also spurred a cultural shift notably in music television and film In *Movies in the Age of Obama: The Era of Post Racial and Neo Racist Cinema* David Garrett Izzo presents a varied collection of essays that examine films produced since the 2008 election The contributors to these essays comment on a number of films in which race and otherness are pivotal elements In addition to discussing such films as *Beasts of the Southern Wild* *Black Dynamite* *The Blind Side* *The Butler* *Django Unchained* *The Help* and *Invictus* this collection also includes essays that probe racial elements in *The Great Gatsby* *The Hunger Games* and *The Mist* The volume concludes with several essays that examine the 2013 Academy Award winner for best picture *12 Years a Slave* Though Obama's election may have been the main impetus for a resurgence of black films this development is a bit more complicated Moviemakers have long responded to the changing times so it is inevitable that the Obama presidency would spark an

increase in films that comment either subtly or overtly on the current cultural climate By looking at the issue these films address Movies in the Age of Obama will be of value to film scholars of course but also to those interested in other disciplines including history politics and cultural studies Gay Left ,1976

Friends of the Unrighteous Mammon Stewart Davenport,2008-09-15 What did Protestants in America think about capitalism when capitalism was first something to be thought about The Bible told antebellum Christians that they could not serve both God and mammon but in the midst of the market revolution most of them simultaneously held on to their faith while working furiously to make a place for themselves in a changing economic landscape In Friends of the Unrighteous Mammon Stewart Davenport explores this paradoxical partnership of transcendent religious values and earthly pragmatic objectives ultimately concluding that religious and ethical commitments rather than political or social forces shaped responses to market capitalism in the northern states in the antebellum period Drawing on diverse primary sources Davenport identifies three distinct Christian responses to market capitalism assurance from clerical economists who believed in the righteousness of economic development opposition from contrarians who resisted the changes around them and adaptation by the pastoral moralists who modified their faith to meet the ethical challenges of the changing economy Delving into the minds of antebellum Christians as they considered themselves their God and their developing American economy Friends of the Unrighteous Mammon is an ambitious intellectual history of an important development in American religious and economic life **The Living Age** ,1903 Critical Perspectives on Democracy Lyman Howard Legters,John P.

Burke,Arthur DiQuattro,1994 The contributors to Critical Perspectives on Democracy suggest that there are ways of looking at democracy that go beyond the registration of preference among the existing available options for the governance of a

society They all begin by taking seriously the defining property of democracy self governance and the rules and institutional forms required to effectuate democracy They collectively enjoin the perspective that democratic theorists need to inform their empirical enterprise with elaborations of the normative bases equal concern and respect for persons the values of community and citizenship the satisfaction of human interests of democratic politics **Subject Guide to Books in Print**
