Edgar A. Poe: A Biography Kenneth Silverman, 1992-11-04 From a Pulitzer Prize winning biographer the most revealing fascinating and important biography of one of our greatest literary figures **Edgar A. Poe** Kenneth Silverman, 1992 From a Pulitzer Prize winning biographer the most revealing fascinating and important biography of one of our greatest literary figures An authoritative biography that both clarifies many problems in Poe's life that have baffled readers for a century and a half and enriches interpretation of many of Poe's writings New York Times Book Review 33 photographs Index **Edgar A. Poe** Kenneth Silverman, 1992 **The Oxford Handbook of Edgar Allan Poe** J. Gerald Kennedy, Scott Peeples, Caleb Doan, 2019 This handbook is currently in development with individual articles publishing online in advance of print publication At this time we cannot add information about unpublished articles in this handbook however the table of contents will continue to grow as additional articles pass through the review process and are added to the site Please note that the online publication date for this handbook is the date that the first article in the title was published online *Dreaming Revolution* Scott Bradfield, 1993 *Dreaming Revolution* usefully employs current critical theory to address how the European novel of class revolt was transformed into the American novel of imperial expansion Bradfield shows that early American romantic fiction including works by William Godwin Charles Brockden Brown James Fenimore Cooper and Edgar Allan Poe can and should be considered as part of a genre too often limited to the Nineteenth century European novel Beginning with Godwin's Caleb Williams Bradfield describes the ways in which revolution legitimates itself as a means of establishing Political consensus For European revolutionaries like Godwin or Rousseau the tyranny of the king must be replaced by the more indisputable authority of human reason In other words democratic revolution makes people free to investigate the same truths and arrive at the same democratic conclusions In the American novel however the Enlightenment's idealized pursuit of abstract truth becomes restructured as a pursuit of abstract space Instead of revealing knowledge Americans explore further territories manifest destiny limitless regions of the yet to be colonized and the still to be known In a spirited discussion of works by Brown Cooper and Poe Bradfield argues that Americans take the class dynamics of the European psychological novel and apply them to the American landscape reimagining psychological spaces as geographical ones Class distinctions become refigured in terms of the common people's pursuit of a meaning vaster than themselves a meaning which leads them to imagine the always expanding body of colonial America However since class conflict is never successfully eliminated or forgotten the memory of class struggle always reemerges in the narrative like a half repressed dream of politics In *Dreaming Revolution* Bradfield reveals and interprets these dreams opening these American novels to a richer and more rewarding reading **American Terror** Paul Hurh, 2015-06-09 If America is a nation founded upon Enlightenment ideals then why are so many of its most celebrated pieces of literature so dark American Terror returns to the question of American literature's distinctive tone of terror through a close study of three authors Jonathan Edwards Edgar Allan Poe and Herman Melville who

not only wrote works of terror but who defended theorized and championed it Combining updated historical perspectives with close reading Paul Hurh shows how these authors developed terror as a special literary affect informed by the way the concept of thinking becomes in the wake of Enlightenment empiricism increasingly defined by a set of austere mechanic processes such as the scientific method and the algebraic functions of analytical logic Rather than trying to find a feeling that would transcend thinking by subtending reason to emotion these writers found in terror the feeling of thinking the peculiar feeling of reason's authority over emotional schemes In so doing they grappled with a shared set of enduring questions What is the difference between thinking and feeling Why does it seem impossible to reason oneself out of an irrational fear And what becomes of the freedom of the will when we discover that affects can push it around *The Works of Edgar Allan Poe: Intro. and Poems* Edgar Allan Poe, 1904

Encyclopedia of American Literature of the Sea and Great Lakes Jill B. Gidmark, 2000-11-30 The sea and Great Lakes have inspired American authors from colonial times to the present to produce enduring literary works This reference is a comprehensive survey of American sea literature The scope of the encyclopedia ranges from the earliest printed matter produced in the colonies to contemporary experiments in published prose poetry and drama The book also acknowledges how literature gives rise to adaptations and resonances in music and film and includes coverage of nonliterary topics that have nonetheless shaped American literature of the sea and Great Lakes The alphabetical arrangement of the reference facilitates access to facts about major literary works characters authors themes vessels places and ideas that are central to American sea literature Each of the several hundred entries is written by an expert contributor and many provide bibliographical information While the encyclopedia includes entries for white male canonical writers such as Herman Melville and Jack London it also gives considerable attention to women at sea and to ethnically diverse authors works and themes The volume concludes with a chronology and a list of works for further reading **Poe** James M.

Hutchisson, 2005 Edgar Allan Poe 1809-1849 was an American original a luminous literary theorist an erratic genius and an analyst par excellence of human obsession and compulsion The scope of his literary achievements and the dramatic character of Poe's life have drawn readers and critics to him in droves And yet upon his death one obituary penned by a literary enemy in the New York Daily Tribune cascaded into a lasting stain on Poe's character leaving a historic misunderstanding Many remember Poe as a difficult self-pitying troubled drunkard often incapable of caring for himself Poe reclaims the Baltimore and Virginia writer's reputation and power retracing Poe's life and career Biographer and critic James M. Hutchisson captures the boisterous worlds of literary New York and Philadelphia in the 1800s to understand why Poe wrote the way he did and why his achievement was so important to American literature The biography presents a critical overview of Poe's major works and his main themes techniques and imaginative preoccupations This portrait of the writer emphasizes Poe's southern identity his existence as a workaday journalist in the burgeoning magazine era his authority as a literary critic and cultural arbiter his courtly demeanor and sense of social propriety his advocacy of women writers his adaptation of art forms

as diverse as the so called gutter press and the haunting rhythms of African American spirituals his borrowing of imagery from such popular social movements as temperance and freemasonry and his far reaching posthumous influence James M Hutchisson Charleston South Carolina is a professor of American literature and southern studies at The Citadel

Moments in History I Mark R. Brewer, 2022-03-16 *Moments in History II* is similar in format to *Moments in History I* but each book stands alone in that one does not have to read one in order to enjoy the other They each contain chapters that examine a historical event and then look at the life of the individual at the center of that event These people are sometimes famous sometimes obscure sometimes heroic and sometimes scoundrels but they are always interesting

American Biography Carl Rollyson, 2006-02 This collection of reviews selected from Rollyson's New York Sun column is as much about the romance of biography as it is about the American lives Certain concerns resonate throughout the book the American left's failure to reckon with Communist subversion McCarthyism and Stalinism the problematic nature of authorized biography the history of American biography definitive biographies literary biography the differences between autobiography and biography the importance of interviews in biographies of contemporary figures the differences between history and biography comparative biographies the virtues of short biographies and of biographies for children the tendency of biographers to fictionalize and of novelists to biographize psychology and biography Rollyson's own experience as a biographer and the way biographers treat one another's work Too many biographers he believes evince no interest in the biographical tradition Concerned only with possession of their subjects their proprietorial attitude deforms not only their biographies but also the genre itself If biography is reviewed badly receiving hardly more than a summary of the subject's life with a perfunctory nod to the biographer it is because the biographical tradition has been disregarded or discounted This book in other words has been written on the behalf of biography a genre that still awaits a full vindication

What Twenty-first Century Leadership Can Learn from Nineteenth Century American Literature Christine A. Eastman,2024-07-12 What Twenty First Leadership Can Learn from Nineteenth Century American Literature aims to narrow the gap between leadership theory and practice offering an account of how leaders in organizations can improve their practice by drawing on the literary imagination Eastman analyses how business students can use literary fiction to find solutions to workplace problems how they can engage with fictional writers ideas about work morality and the self and how they can articulate their own ideas about fostering a deeper connection between leaders and their teams in the workplace The book contributes to leadership studies by setting out the case for using literary fictional texts to explore leadership scenarios It has several purposes The first is to provide educators with ideas on how to use fiction with students following a business curriculum The second is to encourage industry to help their employees to become better able to analyse and synthesize complex and possibly conflicting ideas as well as how to articulate these ideas with clarity A third purpose is to demonstrate how university and industry can work together The work presents an alternative orientation for leaders predicated on the conviction that reading fiction will support students in becoming better at thinking about working relationships and at understanding other people and it provides the underpinnings of a unifying theoretical framework for learning through fiction in a professional context and aims to demonstrate that reading about how fictional characters respond to the challenges of life supports students to formulate their own innovative leadership thinking
