**Ombudsmen in North America** Neil Nemeth,2003-11-30 This book offers the most comprehensive look to date at the effort of about forty U S media organizations to make themselves more accountable Nemeth provides a critical assessment of the ombudsmen s work from the ombudsmen themselves their editors media critics and scholars   **Through Their Eyes** Stephen Hess,2006-01-17 Americans often forget that just as they watch the world through U S media they are also being watched Foreign correspondents based in the United States report news and provide context to events that are often unfamiliar or confusing to their readers back home Unfortunately there has been too little thoughtful examination of the foreign press in America and its role in the world media Through Their Eyes fills this void in the unmistakable voice of Stephen Hess who has been reporting on reporting for over a quarter century Globalization is shrinking the planet making it more important than ever to know what is going on in the world and how those events are being interpreted elsewhere September 11 was a chilling reminder that how others perceive us does matter like it or not Hess seeks to answer three basic yet essential journalistic questions Who are these U S based foreign correspondents How do they operate And perhaps most important

what do they report and how Informed by scores of interviews and armed with original survey research Hess reveals the mindset of foreign correspondents from a broad sample of countries He examines how reporting from abroad has changed over the past twenty years and addresses the daunting challenges facing these journalists ranging from home office politics to national stereotypes Unique among works on the subject this book provides an engaging and humanizing Day in the Life section illustrating how foreign correspondents conduct their daily activities This book continues the author's comprehensive Newswork series on the nexus of media government and politics These five books starting with The Washington Reporters Brookings 1981 have become valuable reference materials for all who seek to understand this intersection of journalism and government Through Their Eyes furthers that rich tradition making it essential and enjoyable reading     [Statistical Abstract of the United States](#) Claitor's Publishing Division,2001-03     *Arab Mass Media* William A. Rugh,2004-02-28 Since September 11 2001 and the wars in Afghanistan and Iraq many television viewers in the United States have become familiar with Al Jazeera as offering an alternative take on events from that presented by mainstream U S media as well as disseminating anti American invective Westerners have tended toward simplistic views of Arab newspapers radio and television assuming that they are all under government control and that freedom of press is non-existent William A Rugh a long time observer of the Arab mass media offers a more nuanced picture of the Arab press as it relates to the political situation in the Arab world today Although governmental influence over the media is stronger in the Middle East than in Europe or the United States Rugh argues that there is more diversity in the Arab media than most people in the West realize In reality the Arab media are coming to reflect the diversity and wide range of opinions of those within the Arab world itself In particular the advent of privately owned Arab satellite television in the 1990s has led to significant liberalization of the media throughout the region Rugh concludes that a democracy of ideas and voices is slowly growing in the Arab world and he remains guardedly optimistic about the positive role the Arab media can play in processes of democratization and nation building
