Preschool Teachers and the Inclusion of Children with Special Needs in their Classroom Kalavathi Sabapathy,2014 Inclusive education is an area of growing interest worldwide over the past decade among policy makers education officers as well as parents This book tracks the development in the domain of special education in Singapore tracing the provisions made for the inclusion of children with special needs into mainstream schools While it is observed that there have been actual policies in place to allow this shift in outlook at the primary and secondary level much more can be done at the preschool level Children learn the basics of literacy and numeracy as well as life skills at a very young age Hence it is important to provide the platform to form the foundation of their habits and attitudes at an early stage Research has shown that inclusive education benefits children with special needs as they learn from observation and gain a sense of belonging and self worth through interaction with their typically developing peers Inclusive education also serves to cultivate acceptance and understanding in typically developing children Therefore it is important to ensure that more is done to implement inclusive education at the formative years of children Some of the challenges faced in implementing inclusion at the preschool level

Whatever Happened to Inclusion? Phil Smith, 2010 Law policy and practice in the United States has long held that students with disabilities including those with intellectual disabilities have the right to a free and appropriate public education in a non restrictive environment Yet very few of these students are fully included in general education classrooms Educational systems use loopholes to segregate students universities regularly fail to train teachers to include students and state regulators fail to provide the necessary leadership and funding to implement policies of inclusion Whatever Happened to Inclusion reports on the inclusion of students with intellectual disabilities from national and state perspectives outlining the abject failure of schools to provide basic educational rights to students with significant disabilities in America The book then describes the changes that must be made in teacher preparation programs policy funding and local schools to make the inclusion of students with intellectual disabilities a reality
