*Educating Caroline* Patricia Cabot, **Written Maternal Authority and Eighteenth-Century Education in Britain** Rebecca Davies, 2016-02-11 Examining writing for and about education in the period from 1740 to 1820 Rebecca Davies s book plots the formation of a written paradigm of maternal education that associates maternity with educational authority Examining novels fiction for children conduct literature and educative and political tracts by Samuel Richardson Sarah Fielding Mary Wollstonecraft Maria Edgeworth Ann Martin Taylor and Jane Austen Davies identifies an authoritative feminine educational voice She shows how the function of the discourse of maternal authority is modified in different genres arguing that both the female writers and the fictional mothers adopt maternal authority and produce their own formulations of ideal educational methods The location of idealised maternity for women Davies proposes is in the act of writing educational discourse rather than in the physical performance of the maternal role Her book contextualizes the development of a written discourse of maternal education that emerged in the enlightenment period and explores the empowerment achieved by women writing within this discourse albeit through a notion of authority that is circumscribed by the rules of a discipline **The Tale of Hawthorn House** Susan Wittig Albert, 2008-09-02 Miss Beatrix Potter finds the abandoned Baby Flora and a scarab ring on her doorstep An investigation reveals that the ring was pawned and reclaimed by a resident of the vacant and supposedly haunted Hawthorn House Now Beatrix and her animal friends are left pondering these utterly puzzling happenings **Educating Young Children in WPA Nursery Schools** Molly Arboleda, 2018-08-14 *Educating Young Children in WPA Nursery Schools* the first full length national study of the WPA nursery school program helps to explain why universal preschool remains an elusive goal This book argues that program success in operating nursery schools throughout the United States during the Great Depression was an important New Deal achievement By highlighting the

program's strengths, its ideals, its curriculum, and its community outreach, the author offers a blueprint for creating a universal preschool program that benefits both children and their families. This volume uncovers the forgotten perspective of WPA nursery school leaders and highlights the program's innovative curriculum for young children by incorporating both extensive archival research and neglected sources.

**The X-List** Evie Mitchell, Rune What kind of crazy person doesn't read? Apparently my new neighbour. She's loud, sassy, flirty, and infuriatingly annoyingly cheerful. And a non-reader. The worst kind of human. So why is that when I dare her to enter the charity read-a-thon I suddenly find myself carefully curating her list? And those books, they're definitely not your momma's romance. Gabby I'm used to people underestimating me. Normally I can brush it off with a laugh. But Rune, he gets under my skin. So when he makes an off-handed comment that a non-reader like me shouldn't bother with the town's charity event, I can't help but accept the challenge. Only these books are not what I remember from the school book list. Not even close. And Rune, well, I'm beginning to see him in a new light. Or should I say, hear him. Warning: This sexy little number is inspired by hot books, men who read, and a slight exhibitionist tease. Get thee a man who knows how to handle you between the covers and settle in; this steamy read will have you begging for more.

**Educating Tomorrow's Engineers** Great Britain: Parliament: House of Commons: Science and Technology Committee, 2013-02-08 In the UK we teach young people to become computer users and consumers rather than programmers and software engineers. This is creating a chronic skills gap in ICT. We need around 82,000 engineers and technicians just to deal with retirements up to 2016 and 830,000 SET professionals by 2020. On the plus side, the Government's proposal to include computer science as a fourth science option to count towards the EBac is welcomed. The Committee also welcomes the EBac's focus on attainment of mathematics and science GCSEs but is concerned that subjects such as Design and Technology D.T. might be marginalised. A Technical Baccalaureate TechBac is being designed but if it is to be a success, schools should be incentivised to focus on the TechBac by making it equivalent to the EBac. Reforms to vocational education following the Wolf Review meant that Level 2 of the Engineering Diploma, a qualification highly regarded, would count as equivalent to one GCSE despite requiring curriculum time and effort equivalent to several GCSEs. The Engineering Diploma, however, is currently being redesigned as four separate qualifications. The Committee also expressed concerns over the Department for Education's DfE lack of clarity on its research budget and use of evidence in decision making. The DfE needs to place greater focus on gathering evidence before changes to qualifications are made and must leave sufficient time for evidence to be gathered on the effectiveness of policies before introducing further change. The possibility of gathering evidence from randomised controlled trials (RCTs) should be seriously considered.
