## **Educating Children At Home:**

Educating Children at Home Alan Thomas,1998-01-01 With increasing numbers of parents choosing to educate their children at home an opportunity exists to explore education outside the school environment Parents often discover that classroom approaches to teaching and learning do not easily translate into the home As a result some radically adjust their approach to educating their children in some instances virtually abandoning any structured teaching or learning Focusing on informal learning this text examines in depth how children can acquire an education simply through everyday experiences The text sets out to challenge fundamental assumptions about the nature of teaching and learning Research has been drawn from a wide cross section of parents from 100 home educating families Homeschooling Samuel L. Blumenfeld,1997 More and more parents today are disillusioned with public education Instead of merely tolerating a faulty system expanding numbers of parents are turning to alternative education for their children Homeschooling describes what homeschooling is all about helps parents decide whether or not this choice fits their family lifestyle covers virtually every aspect of homeschooling and more *Teach Your Own* John Holt,Pat Farenga,2009-03-04 The classic and indispensable work on teaching children at home fully updated for today's new laws new lifestyles and the growing new generation of homeschooling parents Today more than one and a half million children are being taught at home by their own parents In this expanded edition of the book that helped launch the whole movement Pat Farenga has distilled John Holt's timeless understanding of the ways children come to understand the world and added up to the moment legal financial and logistical advice No parent even considering homeschooling should be without this wise and unique reference Rather than proposing that parents turn their homes into miniature schools Holt and Farenga demonstrate how ordinary parents can help children grow as social active learners Chapters on living with children serious play children and work and learning difficulties will fascinate and encourage parents and help them enjoy each homeschool day John Holt's warm understanding of children and his passionate belief in every child's ability to learn have made this book the bible of homeschooling families everywhere

**The Business of Homeschooling** Rhonda M. DeRouen,2015-05-27 Are you a parent who wants to offer your child the opportunity to learn and become a smart upstanding citizen The desire that your child be educated in a safe stress free moral environment shouldn't be too much ask Are you fed up with the daily drama associated with your child's public school attendance Is your local public school satisfying the educational needs of your family If perhaps you feel government intervention is inhibiting your school's basic educational process then you just may be ready for a change If you're considering the option of educating your child at home but don't quite know where to start look no further This book will open your eyes to the life of working as a homeschooling parent It will reveal the day to day realities of spending hundreds of hours per month educating your child Before making the final decision as to whether or not to homeschool your child reviewing these important considerations will be time well spent As a parent placing emphasis on your child's education is

the ultimate decision that will shape your child's future      Why I Love Homeschooling Brynn Steimle, Kathy Oaks, 2020-07-04

Because of the COVID 19 pandemic millions of families worldwide have been thrust into schooling remotely at home. Some parents look forward to sending their kids back to school but others have found they prefer schooling at home. They've noticed things like "My child has learned more at home with me in the last 2 months than in the past 2 years at school." Or "I kind of like spending so much time with my kids and learning alongside them." Many parents are considering continuing homeschooling beyond the pandemic and this book is here to help them make an informed decision about their children's education. Homeschooling is not about trying to reproduce a school environment at home. It's not hours and hours sitting at a desk with a parent or in front of an online class. Homeschooling is about creating an environment outside of the school structure that fosters a love of learning, creativity, family closeness, and flexibility. There is no one size that fits all in homeschooling; every family is different and approaches homeschooling and parenting in their own unique way. In this book 24 seasoned homeschooling families share their experiences. The authors include both religious and secular homeschooling parents from all walks of life. They represent a variety of homeschooling styles from self-directed learning/unschooling to more formal approaches, abilities and disabilities, marital statuses, educational achievements, job statuses, races, and socioeconomic levels. The authors have children of all ages from babies, preschoolers, and kindergarteners to students in elementary school, middle school, or high school. And some have children who are now adults. They discuss what they love about homeschooling and also the challenges they've overcome. We hope that this book will inspire and encourage those who are considering homeschooling as well as those who are already on their homeschooling journey. And we hope it will expand your ideas about the concept of education and what's possible for yourselves and your children.

*The Home Education Handbook* Gill Hines, Dr. Alison Baverstock, 2019-06-11 Home educators want to provide a high quality learning experience for their children and this handbook is an excellent resource for making this aspiration a reality. Dr. Adam Boddison, Chief Executive of National Association of Special Educational Needs. If you are thinking of home educating your child, your initial surprise may be at how easy it is to turn intention into reality. Once you have deregistered your child, you are largely left to get on with delivering education from home as you see best. This book is full of practical guidance for parents based on the authors' long experience of working with children and young people, their parents, teachers, and schools. It will help you plan what is taught as well as when and how. The authors not only consider how to benefit from the opportunities home education provides but also suggest creative ways to fill the potential gaps that might arise from not being part of the traditional school system. *The Home Education Handbook* covers everything from the socialisation of home educated children to advice on supporting the motivation and resilience of all involved. This is a book that every parent who is considering home education or flexi-schooling or is simply keen to ensure that their child gets the best education possible needs to read.

*Real-Life Homeschooling* Rhonda Barfield, 2002-05-18 The book that shows homeschooling in action. What does it really mean when

parents say they homeschool their child or children For Rhonda Barfield a homeschooler for the past 10 years the definition is as diverse as the 21 families she studies in this eye opening book *Real Life Homeschooling* From the city to the country apartments to split levels you ll enter each household and see education in action Discover the challenges and rewards of tailoring instruction to each child s needs while catering to his or her inquisitiveness and curiosity See why the number of children being taught by their parents is growing nationwide at home there are no overcrowded classrooms no unknown dangers lurking in the halls and no doubts as to the quality of the education Whether you are just contemplating homeschooling or are a veteran seeking fresh ideas and help in overcoming obstacles look no further *Real life Homeschooling* shows just how practical and rewarding it is to educate children and provide them with what they need most
