Educating Professional Psychologists History And Guiding Conception:

Educating Professional Psychologists Donald Robert Peterson, 1997 This is a story of the development of professional psychology It is a story that Donald Peterson is uniquely qualified to tell This book defines the basic issues with which all professional psychologists must be concerned This account is personal and local Embedded in a rich understanding of the history of psychology this book provides a coherent ideology for professional psychology and education of its practitioners In its entirety the statement embraces commentary on the epistemological foundations of our discipline an outline of its substantive content means for continuing appraisal and improvement of professional education and proposals for improving the functional value of the profession in meeting the needs of the larger society *The ^AOxford Handbook of Education and Training in Professional Psychology* W. Brad Johnson Ph.D., Nadine Kaslow Ph.D., 2014-03-11 The Oxford Handbook of Education and Training in Professional Psychology provides the first comprehensive treatment of the processes and current state of the art practices bearing on educating and training professional psychologists Twelve Years of Correspondence With Paul Meehl Donald R. Peterson, 2017-09-29 In 1996 Division 12 of the APA presented Centennial Awards to two psychologists who were considered to have made the greatest lifetime contributions to the discipline One of those individuals was Paul Meehl Dr Meehl's writings on research methodology and mental illness influenced generations of researchers and psychotherapists Twelve Years of Correspondence With Paul Meehl is composed mainly of letters between Drs Paul Meehl and Donald Peterson during the final 12 years of Meehl's life After Meehl's death Dr Peterson revisited their correspondence and found a remarkable order in it One topic flowed into another With some connective explanatory text the letters shaped themselves into a book The correspondence forms a story of the relationship between an extraordinary mentor and his student as well as a dialogue between two eminent psychologists The letters explore penetrating questions and underlying arguments about some of the most recalcitrant issues that scientists and practitioners encounter in their efforts to understand the human condition Paul Meehl contributed notably to seven areas philosophy of science learning schizophrenia clinical and research training personality assessment taxometrics and clinical versus statistical prediction The letters touch on each of these areas and examine some issues more thoroughly than either Meehl or Peterson had done in any other writings The book includes an extensive set of endnotes that identify the many works that are referred to in the letters as well as explanatory comments This intimate look at Paul Meehl's way of thinking will appeal to graduate students and professionals in such diverse fields as psychology psychiatry biology sociology law education and philosophy **Handbook of Education, Training, and Supervision of School Psychologists in School and Community, Volume I** Eneida García-Vázquez, Tony D.
