Education Its Nature And Purpose:

Education Montagu Vaughan Castelman Jeffreys, 1971 Here is an enquiry into the very nature and purpose of education which will provide a foundation on which more specialized studies in the psychology history and sociology of education can be based Since education is essentially learning to live its problems are the problems of life itself the book therefore surveys the main problems of human life the relation of the individual and society freedom and authority continuity and change i e growth and underlying them all the paradox that aspiration and frustration are continually linked in human experience The educational implications of these various problems are considered in such a way that the methods as well as the aims of education are discussed The special merit of the book lies in the author s attempt to present something of a general philosophy of life i e a survey of the nature and destiny of man and at the same time to see the theory and practice of education in relation to it All those concerned in teaching students and staff in Colleges and University Schools of Education as well as practicing teachers in schools will find here a clear examination and statement of the aims and methods of education in relation to the many personal and social problems which all teachers and taught must face M V C Jeffreys has spent forty years working in practical education mostly in the training of teachers He was Professor of Education at the University of Durham 1939 46 and Professor of Education and Director of the Institute of Education at the University of Birmingham 1946 64 He has also published many books and articles

The Logic of Education Paul Heywood Hirst, R. S. Peters, 2011 This book explores the implications for the curriculum for teaching and for the authority structure of schools and colleges of an analysis of education in which the development of knowledge and understanding is accorded a central position The book explains what philosophy of education is and by concentrating on its central concepts initiates readers into exploring it for themselves It also serves as a succinct introduction to the growing literature on philosophy of education in the UK

Education for Values Jo Cairns, Roy Gardner, Denis Lawton, 2003-12-16 Values in education how they are taught the ethics of teaching itself plus their role in the education of educators is an area of lively and passionate debate This book provides an essential resource of ideas issues and current practice for all those with an interest in this area of education Presenting a range of critical writing this book deals with issues relating to education in values approaches to teaching values teacher education and values research for education in values and international comparative studies Highly regarded when it was first published in hardback in 2000 the book now appears in paperback for the first time with a new introduction which updates the main ideas and themes of the book
