**Introduction to Educational Administration** Douglas J. Fiore, 2004 This comprehensive and practical text introduces your students to concepts and theories of educational administration. It is unlike other texts which are structured in isolated units. Instead, the topics in this book are connected and presented in the context of the ISLLC standards which reveal the real world of practicing school administrators. *Introduction to Educational Administration* Douglas J. Fiore, 2009 First Published in 2009 Routledge is an imprint of Taylor Francis, an information company. **Educational Administration** Ralph B. Kimbrough, Michael Y. Nunnery, 1983 *The School Superintendent* Theodore J. Kowalski, 2006 The School Superintendent: Theory, Practice and Cases is both a textbook and reference for practitioners. **Contemporary School Administration** Theodore J. Kowalski, Ulrich C. Reitzug, 1993 **The School Principal** Theodore J. Kowalski, 2010-08-14 Over the past two decades, efforts to improve schools have significantly modified role expectations for principals. Today, school level administrators are expected to be both visionary leaders and competent managers. Based on the conviction that administration is an amalgam of leadership and management, *The School Principal* emphasizes the need for practitioners to apply conceptual skills to make what to do decisions, to apply technical skills to make how to do decisions, and to apply relational skills to engage in democratic decision making. Kowalski frames the book with a discussion of the nature of schools, the roles of principals, and their need to improve schools. The book then provides a balanced treatment of leadership and management, covering issues of personal behavior, instructional leadership, relationship building, issues, finances, facilities, personnel management, pupil services, and maintaining safe schools. The text closes with a discussion of the vital aspects of practice for contemporary principals, addressing problem solving, collaborative change strategies, and personal commitment to being a principal. Special Features: Vignettes introduce the subject matter in the context of common challenges faced by practitioners; Knowledge Based Questions and Skill Based Activities prompt readers to engage with and reflect on the chapter content. *The School Principal* aligns with the Educational Leadership Consortium Council (ELCC) Standards, treating principals as concurrently visionary leaders and competent managers. This excellent text addresses the needs of aspiring and practicing principals, providing the tools to build effective and efficient schools. **School Leadership and Administration** Allan Walker, Clive Dimmock, 2012-11-12 This text calls for a broader approach to comparative educational administration, one which uses culture as the principle means of analysis. The articles collected by Allan Walker and Clive Dimmock detail the educational practices and outcomes of other systems while taking into account the mediating influence of culture. In this way, these essays stress the specific aspects of the cultures studied and map out common ground for the study of administrators' values, beliefs, and actions. **Handbook of Education Politics and Policy** Bruce S.
