examine the extent to which it is reflected in the curricula of schools and universities around the world Finally the complex relationship between globalization and nationalism is explored and contributors explore the part that educational institutions and practices play in forming both agendas A wide range of perspectives are employed including post colonial discourse classical economics and sociological theory Nationalism and globalization are both ongoing processes and this volume makes a case for the central role of education in both through its potential to influence change and to act as benevolent force in shaping a global community *Paedagogica Europaea (majalah)* ,1968 *Eudised European Educational Research Yearbook 1999* Council of Europe, Directorate of Education, Culture and Sport, 1999-01-01 This edition of the EUDISED European Educational Research Yearbook provides the educational world with access to the very latest information on ongoing and completed educational research projects Perhaps most importantly for the world of research it enables researchers to get to know their international colleagues and their work better permits researchers and decision makers to make contact and helps to bring about fruitful working relationships A highly recommended reference tool for all educational reference libraries also helping policymakers and educators to make the right choices and avoid duplication of effort
