Introduction Education is a complex process which involves different components such as pupils teachers employees building money equipment rules and regulations etc All these components have to be managed properly in order to run the entire process smoothly Educational Administration deals with all these components of education and integrates the different parts into a comprehensive whole for the smooth functioning of educational process We all know that for any process to run we need different components a proper procedure and a machinery to fulfill its specific end in view Educational administration is a comprehensive effort to integrate different components of education to achieve the aim and objectives of education It is a dynamic side of education which generally deals with the educational practices Educational administration always deals with an educational organization or institution right from school college to university or any other seat of higher learning It also deals with the different aspects of education such as planning decision making implementation of educational policies evaluation framing and implementing rules and regulations of the institution finances and different problems of pupils teachers employees and above all realization of some specific aims of education Information Technology in Educational Management Ben-Zion Barta,Y. Gev,Gili Telem,2013-06-29 Educational institutions in which administrators managers and teachers will be working in the late 1990 s will be far different from those of today Schools which until recently were lagging behind in the implementation of information technology IT in their administration and management are now attempting to close the gap A massive and rapid computerization process in schools school districts and throughout the other levels of the educational system including universities has made computers an integral part of the educational management scene A computer on the desk of every educational management staff might become a reality in the near future The term IT includes three main components hardware software mainly management information systems MIS decision support systems DSS and

human factors Presently successful implementation depends on adequate software and on human factors MIS DSSs are being implemented with the aim of providing meaningful support for school employees in their daily activities and to improve their performance effectiveness and efficiency Much like at universities usable and accessible school databases are being established encompassing data on students teachers employees classrooms grade levels courses student achievements and behavior school space curriculum finance inventory transportation etc *Handbook of Educational Ideas and Practices (Routledge Revivals)* Noel Entwistle, 2015-08-11 First published in 1990 the Handbook of Educational Ideas and Practices was written for practitioners and students in the field of education and its related services and was designed to appeal to educationists no matter what their nationality Focusing mainly on compulsory schooling it provides summaries of the thinking research findings and innovative practices current at the time However the book is also careful to present a complete picture of education and therefore includes a separate section for education beyond school which covers pre school level post secondary level and adult and continuing education There are also other chapters dealing with aspects of organization curriculum and teaching in various forms of tertiary education Indeed each topic has been discussed by an acknowledged expert writing in sufficient detail in order to resist trivialization
