Standards-based School Mathematics Curricula Sharon L. Senk, Denisse R. Thompson, 2020-07-24 The Curriculum and Evaluation Standards for School Mathematics published by the National Council of Teachers of Mathematics in 1989 set forth a broad vision of mathematical content and pedagogy for grades K 12 in the United States These Standards prompted the development of Standards based mathematics curricula What features characterize Standards based curricula How well

do such curricula work To answer these questions the editors invited researchers who had investigated the implementation of 12 different Standards based mathematics curricula to describe the effects of these curricula on students learning and achievement and to provide evidence for any claims they made In particular authors were asked to identify content on which performance of students using Standards based materials differed from that of students using more traditional materials and content on which performance of these two groups of students was virtually identical Additionally four scholars not involved with the development of any of the materials were invited to write critical commentaries on the work reported in the other chapters Section I of Standards Based School Mathematics Curricula provides a historical background to place the current curriculum reform efforts in perspective a summary of recent recommendations to reform school mathematics and a discussion of issues that arise when conducting research on student outcomes Sections II III and IV are devoted to research on mathematics curriculum projects for elementary middle and high schools respectively The final section is a commentary by Jeremy Kilpatrick Regents Professor of Mathematics Education at the University of Georgia on the research reported in this book It provides a historical perspective on the use of research to guide mathematics curriculum reform in schools and makes additional recommendations for further research In addition to the references provided at the end of each chapter other references about the Standards based curriculum projects are provided at the end of the book This volume is a valuable resource for all participants in discussions about school mathematics curricula including professors and graduate students interested in mathematics education curriculum development program evaluation or the history of education educational policy makers teachers parents principals and other school administrators The editors hope that the large body of empirical evidence and the thoughtful discussion of educational values found in this book will enable readers to engage in informed civil discourse about the goals and methods of school mathematics curricula and related research

An Architectural Approach to Instructional Design Andrew S. Gibbons,2013-10-30 Winner of the 2014 AECT Design Development Outstanding Book Award An Architectural Approach to Instructional Design is organized around a groundbreaking new way of conceptualizing instructional design practice Both practical and theoretically sound this approach is drawn from current international trends in architectural digital and industrial design and focuses on the structural and functional properties of the artifact being designed rather than the processes used to design it Harmonious with existing systematic design models the architectural approach expands the scope of design discourse by introducing new depth into the conversation and merging current knowledge with proven systematic techniques An architectural approach is the natural result of increasing

technological complexity and escalating user expectations As the complexity of design problems increases specialties evolve their own design languages theories processes tools literature organizations and standards An Architectural Approach to Instructional Design describes the implications for theory and practice providing a powerful and commercially relevant introduction for all students of instructional design *Online Assessment, Measurement, and Evaluation* David D. Williams, Mary Hricko, 2006-01-01 This book provides a view of the possibilities and challenges facing online educators and evaluators in the 21st century Provided by publisher *Evaluability Assessment* Michael S.
