Educational Foundations of the Jesuits in Sixteenth-Century New Spain Jerome V. Jacobsen, 2023-11-15 Educational Foundations of the Jesuits in Sixteenth Century New Spain is the first volume in a series exploring the Jesuits pivotal role in shaping education in Spanish North America This comprehensive study focuses on the arrival of the Jesuits in Mexico City in 1572 marking the beginning of their educational efforts in New Spain Despite the extensive influence of the Jesuits in North America their contributions to education have often been overshadowed by their more widely studied missions in New France This book shines a light on the profound and largely forgotten educational work of the Jesuits in Mexico and the broader Western Hemisphere highlighting their establishment of colleges and seminaries that nurtured European culture in the New World The volume delves into the broader context of Jesuit education considering the efforts of earlier missionary orders such as the Franciscans Dominicans and Augustinians whose work laid the groundwork for the Jesuits Additionally it explores the life of Ignatius of Loyola and the intellectual and spiritual training that defined the Jesuit order which was instrumental in the development of their educational system This foundational work sets the stage for future volumes that will explore the Jesuit missions on the frontiers of Western North America offering a detailed account of the Jesuit educational legacy in the Americas This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1938

The first three decades of Bourbon rule in France coincided with a period of violent fragmentation followed by rapid renewal within the French Catholic community In the early 1590s when Henri IV Protestant head of the Bourbon house acceded to the throne French Catholics were at war with each other as Leaguer and Navarrist factions fought both militarily and ideologically for control of Catholic France However by 1620 a partially reconciled French church was in the process of

defining a distinctive reform movement as French Catholics encouraged by their monarchs sought to assimilate aspects of the international Catholic reformation with Gallican traditions to renew their church By 1650 this French Catholic church and its distinctive reform movement forged in the decades following the collapse of the Catholic League had become one of the most influential movements in European Catholicism This study reconsiders the forces behind these dramatic developments within the French church through the re examination of a classic question in French history Why was the Society of Jesus able to integrate successfully into the French church in the opening decades of the seventeenth century despite being expelled from much of the kingdom in 1594 for its alleged role in the attempted assassination of the king The expulsion recall and subsequent integration of the Society into the French church offers a unique window into the evolution of French Catholicism between 1590 and 1620 It provides new insight into how Henri IV re established royal authority in the French Catholic church following the collapse of the Catholic League and how this development helped to heal the rifts in French Catholicism wrought by the Leaguer movement It also explores in unprecedented detail how Henri played an important role in channelling religious energy in his kingdom towards forms of Catholic piety exemplified by his new allies the Jesuits which became the foundation of

English Jesuit Education Maurice Whitehead,2016-05-06 Analysing a period of hidden history this book tracks the fate of the English Jesuits and their educational work through three major international crises of the eighteenth century the Lavalette affair a major financial scandal not of their making which annihilated the Society of Jesus in France and led to the forced flight of exiled English Jesuits and their students from France to the Austrian Netherlands in 1762 the universal suppression of the Jesuit order in 1773 and the English Jesuits remarkable survival of that event following a second forced flight to the safety of the Principality of Li ge the French Revolution and their narrow escape from annihilation in Li ge in 1794 resulting in a third forced flight with their students this time to England Despite repeated crises huge adversity and multiple losses of personnel property and educational goods including significant libraries the suppressed English Jesuits reconfigured themselves Modernising their curriculum they influenced the development of Jesuit education not only in the United Kingdom but also in the nascent United States of America in 1789 their influence contributed to the founding of Georgetown Academy which later developed into the present day Georgetown University in Washington DC English Jesuit Education is a unique story of educational survival and development against seemingly impossible odds drawing on hitherto largely unexplored material in a wide range of archives

Scott* Karl Theodor Griesinger,1883 *Parallels and Responses to Curricular Innovation* Brad Petitfils,2014-10-24 This volume explores two radical shifts in history and subsequent responses in curricular spaces the move from oral to print culture during the transition between the 15th and 16th centuries and the rise of the Jesuits and the move from print to digital culture during the transition between the 20th and 21st centuries and the rise of what the philosopher Jean Baudrillard called hyperreality The curricular innovation that accompanied the first shift is considered

through the rise of the Society of Jesus the Jesuits These men created the first global network of education and developed a humanistic curriculum designed to help students navigate a complicated era of the known human centered and unknown God centered universe The curricular innovation that is proposed for the current shift is guided by the question What should be the role of undergraduate education become in the 21st century Today the tension between the known and unknown universe is concentrated on the interrelationships between our embodied spaces and our digitally mediated ones As a result today s undergraduate students should be challenged to understand how in the objectively focused commodified STEM centric landscape of higher education the human subject is decentered by the forces of hyperreality and in turn how the human subject might be recentered to balance our humanness with the new realities of digital living Therein one finds the possibility of posthumanistic education
