religions teach about spiritual systems that reject violence and the individualistic pursuit of economic and political gain and call their followers to compassion for every human being. It also seeks to lead students to an awareness that the followers of religions across the world need to be and to grow in dialogical relationships of respect and understanding. An essential aim of interreligious education is the promotion of understanding and engagement between people of different religions and therefore it has great potential to contribute to the common good of the global community. Interreligious education has grown from the interfaith movement whose beginning is usually identified with the World Parliament of Religions held in Chicago in 1893. This was the first time in history that leaders of the eastern and western religions had come together for dialogue and to consider working together for global unity.

The Carpatho-Rusyn Americans Paul R. Magocsi, 1989. Discusses the history, culture, and religion of the Carpatho-Rusyns, factors encouraging their emigration to North America, and their acceptance as an ethnic group there.

Churches In-between Stéphanie Mahieu, Vlad Naumescu, 2008. Eastern Rite Catholic Churches occupy an ambiguous position between two religious worlds and challenge the idea of a sharp religious and political dichotomy between Eastern and Western Europe. After decades of repression under socialism, the churches, known popularly in Central Europe as Greek Catholic, have successfully undertaken a process of revitalisation. This has been marked by competition with other churches, both over material properties and over people's souls. How can a Greek Catholic identity be recreated? Can these churches provide a distinctive product for the new religious marketplace? By exploring such questions, the contributors to this volume shed fresh light on the social and political shaping of religious phenomena in the era of postsocialism and also on more general issues of belief, practice, transmission, and syncretism.

Carpatho-Rusyn Studies Paul R. Magocsi, 1988. The third volume of the annotated bibliography on Carpatho-Rusyn studies contains over 800 entries in a wide range of disciplines: archeology, art and architecture, bibliography, biography, church history, economics, ethnography, geography, history, language, literature, and politics, among others. Each entry provides full bibliographic data followed by a succinct content analysis of the book, journal article, or book chapter in question. The bibliography is comprehensive and includes all publications that appeared between 1995 and 1999, regardless of language or place of publication. Appended are several statistical charts and a comprehensive index of authors and subjects.

The Orthodox Church Thomas E. FitzGerald, 1998-09-30. The first comprehensive introduction to the Orthodox Church in the United States from 1794 to the present, this text offers a succinct overview of the Church's distinctive history and its particular perspectives on the Christian faith. FitzGerald examines the relationship between the Orthodox Church and other Christian churches in the U.S. as well as the contributions the Orthodox Church has made to the ecumenical movement. This student edition, ideal for classes in American Religion, Denominational History, and American social and cultural history, includes a bibliographic essay intended as a guide for further investigation into aspects of Orthodox Christianity.
