S. Lewis,1992-01-31 Professor Lewis believed that literature exists above all for the joy of the reader and that books should be judged by the kind of reading they invite He doubted the use of strictly evaluative criticism especially its condemnations Literary criticism is traditionally employed in judging books and bad taste is thought of as a taste for bad books Professor Lewis experiment consists in reversing the process and judging literature itself by the way men read it He defined a good book as one which can be read in a certain way a bad book as one which can only be read in another He was therefore mainly preoccupied with the notion of good reading and he showed that this in its surrender to the work on which it is engaged has something in common with love with moral action and with intellectual achievement In good reading we should be concerned less in altering our own opinions than in entering fully into the opinions of others in reading great

Monthly, 1927 *The Bibliotheca Sacra and Biblical Repository*, 1863 **Popular Literature** Rupayan Mukherjee, Jaydip Sarkar, 2022 This volume offers a selection of critical essays on texts that can be broadly categorized as popular literature In addition to critical readings of popular texts such as *The Jungle Book* and *The Hound of the Baskervilles* the book considers populist tendencies in literary classics like *Jane Eyre* and *Frankenstein* **Good Health**, 1898 **A Sociolinguistic Insight into the Italian Community in the UK** Siria Guzzo, 2014-11-19 The Italian diaspora throughout the world navigate and negotiate various complex and multidirectional language dynamics In order to account for the sociolinguistic processes that have taken place this book provides a detailed observation of these linguistic dynamics from the point of view of the Italian diaspora in Bedford in the UK This study on the language behaviour of three generations of Italian residents in Bedford provides empirical data on and highlights the importance of the sociolinguistic examination of English in service encounters What comes to light in most of the cases analysed is that audience design has a proven influence on the choice of language and repertoire within the speech of the Bedford Italian community There are not only switches from one language to another but also style shifts in the linguistic repertoire Throughout this study it becomes clear that speakers freely use the two languages available to their speech community and thanks to their active and passive repertoire they apply a range of linguistic resources from both Italian and English The volume also uncovers some especially interesting traits in 3rd generation speech involving in particular a rather widespread use of mixed pronunciation Upon moving past the initial assumption that the adoption of this mixed pronunciation is used to show the younger generation's sense of belonging to the BI community a quite different reason emerges Closer analysis reveals that due to an increasing feeling of non Britishness this linguistic choice may be linked to a deliberate and conscious attempt on their part not to accommodate to British culture
