English Language Teacher Education Minh Hue Nguyen, 2019-07-16 This book examines a range of complex issues concerning the professional experience i.e. practicum in English language teacher education with regard to curriculum design and implementation as well as professional learning. Drawing on a sociocultural perspective it explores the context of the professional experience preservice teachers as learners of English language teaching and the activity of learning to teach English language in connection with interrelated contextual and personal issues. Contextual issues such as policies, curricula, university-school partnerships and mentoring relations are investigated in relation to personal issues such as the beliefs, expectations, prior educational experiences, previous teaching experiences and cultural/linguistic backgrounds of preservice teachers. In turn, the book addresses professional learning issues including professional identity development, emotional experiences and pedagogical learning in depth. The book delves into the qualitative, fine-grained aspects of the professional experience while also making valuable conceptual contributions through a sociocultural analysis of the professional learning experience which can also be applied to research in other teacher education contexts. The findings presented here hold practical implications for English language teacher education in terms of developing a knowledge base for English language teaching and an effective model of professional experience to prepare English language teachers for working in today's expanded, diverse and dynamic neoliberal contexts. Innovative Practices in Pre-Service Teacher Education, 2019-02-11

Pre-service teacher education is a crucial component of the lifelong process of the professional development of teachers as it equips prospective teachers with the necessary and sufficient competencies to design meaningful and authentic learning environments that engage students in the learning process. If done well, it enhances the quality and improves upon the retention of teachers in the profession. This book is important because it attempts to deconstruct the nature and describe the practice of current pre-service courses and programs in the Asia-Pacific region, examine new paradigms of pre-service teacher education and their implications for practice and explore emerging innovative practices. Moreover, this book's particular focus on engaging new partners and on harnessing required resources and capacities in the process together with the particular role that new technologies may play in the new partnerships is especially valuable. Drawing upon leading scholars of teacher education from the Asia-Pacific region, the 12 chapters in this book are divided into three main sections to revitalize and inform the scholarship and debate on teacher education: Examining Pre-Service Teacher Education, Engaging Partners in Pre-Service Teacher Education, Emerging Practices in Pre-Service Teacher Education.
