**Times, Ugly Times... That's Life!** Gene Jackson, 2005 Rich in memories of family values and traditions the author reflects on his experiences and relationships while growing up during the Great Depression At an early age he entered the military to get away from home and surroundings that bred poverty Upon leaving the military the author enters a full time ministry only to leave it in order to enter the secular realm as an educator entrepreneur and farmer Continuing his search for fulfillment and challenge the book describes how the author gives up farming to become and executive officer with a company in a specialty market This venture takes him to many far away places and several trips around the world before semi retirement

Science and Insight Roger Bourke White Jr., 2012-05-07 Good stories are about people Good science fiction stories are about science and people So how to you put good science into a story that is about people Thats what this book is about Its about looking for how science changes peoples lives and how to make that change an interesting story about people This is about making Technofiction science fiction where science matters as much as characters Welcome to a Tales of Technofiction book Theory of Unemployment Arthur Cecil Pigou, 2013-10-28 First Published in 1968 A reprinting of the original collection of essays on unemployment from 1933 which are addressed to students of economics Concerning the areas of the form of the real demand function for labour in particular occupations the monetary factor with the aim of a direct discussion on the causation of unemployment and its fluctuations **How Good Lawyers Survive Bad Times** Sharon D. Nelson, James A. Calloway, Ross L. Kodner, 2009 The weak economy and large number of firm layoffs have resulted in a flood of potential new solo and small firm lawyers starting their own practices in the wake of the exodus from BigLaw Small practice lawyers well seasoned or just starting out can gain immeasurably by just applying even a few of the myriad tips within this book

Job Protection Deregulation in Good and Bad Times Mr. Romain A Duval, Davide Furceri, João Tovar Jalles, 2017-12-14 This paper explores the short term employment effect of deregulating job protection for regular workers and how it varies with

prevailing business cycle conditions We apply a local projection method to a newly constructed narrative dataset of major regular job protection reforms covering 26 advanced economies over the past four decades The analysis relies on country sector level data using as an identifying assumption the fact that stringent dismissal regulations are more binding in sectors that are characterized by a higher natural propensity to regularly adjust their workforce We find that the responses of sectoral employment to large job protection deregulation shocks depend crucially on the state of the economy at the time of reform they are positive in an expansion but become negative in a recession These findings are consistent with theory and are robust to a broad range of robustness checks including an Instrumental Variable approach using political economy drivers of reforms as instruments Our results provide a case for undertaking job protection reform in good times or for designing it in ways that enhance its short term impact **Business Cycle Theory, Part I Volume 3** Harald

Hagemann,2024-08-01 In the mid 19th century the business cycle was increasingly recognized as a recurrent phenomenon This edition contains key texts from the range of literature in the field It covers many Anglo Saxon writers as well as contributions from the French German Italian Russian and Swedish debates *Los Angeles Magazine* ,2006-02 Los Angeles magazine is a regional magazine of national stature Our combination of award winning feature writing investigative reporting service journalism and design covers the people lifestyle culture entertainment fashion art and architecture and news that define Southern California Started in the spring of 1961 Los Angeles magazine has been addressing the needs and interests of our region for 48 years The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian **Catalog of Copyright Entries** Library of Congress. Copyright Office,1978 Sensorimotor Psychotherapy Pat Ogden,Janina Fisher,2015-04-27 A book for clinicians and clients to use together that explains key concepts of body psychotherapy The body s intelligence is largely an untapped resource in psychotherapy yet the story told by the somatic narrative gesture posture prosody facial expressions eye gaze and movement is arguably more significant than the story told by the words The language of the body communicates implicit meanings and reveals the legacy of trauma and of early or forgotten dynamics with attachment figures To omit the body as a target of therapeutic action is an unfortunate oversight that deprives clients of a vital avenue of self knowledge and change Written for therapists and clients to explore together in therapy this book is a practical guide to the language of the body It begins with a section that orients therapists and clients to the volume and how to use it followed by an overview of the role of the brain and the use of mindfulness The last three sections are organized according to a phase approach to therapy focusing first on developing personal resources particularly somatic ones second on utilizing a bottom up somatic approach to memory and third on exploring the impact of attachment on procedural learning emotional biases and cognitive distortions Each chapter is accompanied by a guide to help therapists apply the chapter s teachings in clinical practice and by worksheets to help clients integrate the material on a personal level The concepts interventions and worksheets introduced in this book are

designed as an adjunct to and in support of other methods of treatment rather than as a stand alone treatment or manualized approach By drawing on the therapeutic relationship and adjusting interventions to the particular needs of each client thoughtful attention to what is being spoken beneath the words through the body can heighten the intimacy of the therapist client journey and help change take place more easily in the hidden recesses of the self

**Streaming, Sharing, Stealing** Michael D. Smith, Rahul Telang, 2016-08-05 How big data is transforming the creative industries and how those industries can use lessons from Netflix Amazon and Apple to fight back The authors explain gently yet firmly exactly how the internet threatens established ways and what can and cannot be done about it Their book should be required for anyone who wishes to believe that nothing much has changed The Wall Street Journal Packed with examples from the nimble footed who reacted quickly to adapt their businesses to laggards who lost empires Financial Times Traditional network television programming has always followed the same script executives approve a pilot order a trial number of episodes and broadcast them expecting viewers to watch a given show on their television sets at the same time every week But then came Netflix s House of Cards Netflix gauged the show s potential from data it had gathered about subscribers preferences ordered two seasons without seeing a pilot and uploaded the first thirteen episodes all at once for viewers to watch whenever they wanted on the devices of their choice In this book Michael Smith and Rahul Telang experts on entertainment analytics show how the success of House of Cards upended the film and TV industries and how companies like Amazon and Apple are changing the rules in other entertainment industries notably publishing and music We re living through a period of unprecedented technological disruption in the entertainment industries Just about everything is affected pricing production distribution piracy Smith and Telang discuss niche products and the long tail product differentiation price discrimination and incentives for users not to steal content To survive and succeed businesses have to adapt rapidly and creatively Smith and Telang explain how How can companies discover who their customers are what they want and how much they are willing to pay for it Data The entertainment industries must learn to play a little moneyball The bottom line follow the data
