## **Good Value Britain 1988:**

**Good Value Britain, 1988**, 1988-04-01 *The Official History of the British Civil Service* Rodney Lowe, Hugh Pemberton, 2020-05-07 This second volume of *The Official History of the British Civil Service* explores the radical restructuring of the Civil Service that took place during the Thatcher and Major premierships from 1982 until 1997 after a period of confusion and disagreement about its future direction. The book brings a much needed historical perspective to the development of the new public management in which the UK was a world leader and considers difficult questions about the quality of democratic governance in Britain and the constitutional position of its Civil Service. Based on extensive research using government papers and interviews with leading participants it concentrates on attempts to reform the Civil Service from the centre. In doing so it has important lessons to offer all those both inside and outside the UK seeking to improve the quality, efficiency and accountability of democratic governance. Particular light is shed on the origins of such current concerns as: The role of special advisers; The need for a Prime Minister's Department; The search for cost efficiency; Accountability to Parliament and its Select Committees; Civil Service policy making capacity and implementation capability. This book will be of much interest to students of British history, government and politics and public administration.

**American Bookseller**, 1987 **Blueprint 5** Olof Johansson, David Pearce, David Maddison, 2014-01-14 Evidence has come to light regarding the impact of benzene emissions from road transport, the incidence of asthmatic attacks and the possible toll of particulate matter from diesel engines on human health. This book examines the issues and argues that without a fundamental change in policy it is inevitable that the transport sector will continue to impose increasing costs on the natural environment, human health and the economy. It also quantifies the external costs of road transport and suggests new measures such as road pricing and financial incentives to pave the way to a sustainable transport system. *The Sociology of Tourism* Yiorgos Apostolopoulos, Stella Leivadi, Andrew Yiannakis, 2013-04-15 The rapid expansion of the tourism industry has provided many economic benefits and affected every facet of contemporary societies including employment, government revenue and cultural manifestations. However, tourism can also be considered a problematic phenomenon promoting dependency, underdevelopment and adverse sociocultural effects, especially for developing countries. This pioneering work provides a comprehensive review of these complex tourism issues from a sociological perspective. Various theoretical and empirical approaches are introduced and the following issues are discussed: identifiable and stable forms of touristic behaviour and roles; social divisions within tourism; the interdependence of tourism and social institutions; the effects of transnational tourism and commodification on the ecosystem. Featuring international contributions from nine different countries, this book brings together the most noted theoretical and empirical studies and enriches them with diverse experiences and perspectives. [Britain's Economic Performance](#) Tony Buxton, Paul Chapman, Paul G Chapman, Paul Temple, 2005-08-08 This new and substantially revised edition of *Britain's Economic Performance* provides a unique

assessment of the current state of the supply side of the economy Written by a team of highly experienced policy oriented applied economists this volume will be a valuable source of reference analysis and guidance for students and policy makers

**Financing Higher Education** N. A. Barr, Iain Crawford, 2005 Nicholas Barr is the main expert in the funding of higher education in Britain and has been active both in commenting on the process and in its implementation

Applied Mechanics Reviews ,1989 *The Politics and Economics of Britain's Foreign Aid* Tim Lankester, 2013 The

Pergau dam in Malaysia was the most controversial project in the history of British aid. Because of its high cost it was a poor candidate for aid funding. It was provided in part to honour a highly irregular promise of civil aid in connection with a major arms deal. After two parliamentary inquiries and intense media coverage in a landmark judgement the aid for Pergau was declared unlawful. Tim Lankester offers a detailed case study of this major aid project and of government decision making in Britain and Malaysia. Exposing the roles played by key politicians and other stakeholders on both sides he analyses the background to the aid arms linkage and the reasons why the British and Malaysian governments were so committed to the project before exploring the response of Britain's Parliament and its media and NGOs and the resultant legal case. The main causes of the Pergau debacle are carefully drawn out from conflicting policy agendas within the British government to the power of the business lobby and the inability of Parliament to provide any serious challenge. Finally Lankester asks whether given what was known at the time and what we know now he and his colleagues in Britain's aid ministry were correct in their objections to the project. Pergau is still talked about as a prime example of how not to do aid. Tim Lankester a key figure in the affair is perfectly placed to provide the definitive account. At a time when aid budgets are under particular scrutiny it provides a cautionary tale. *Energy Research Abstracts*, 1990. *Fundamental British Values, Michel Foucault, and Religious Education Teacher Subjectivity* Francis Farrell, 2023-05-17. This book contributes to the small but growing critical literature on fundamental British values and the Prevent strategy in the British education system. Focusing specifically on RE a subject concerned with multiculturalism difference and pluralism the book will argue that there is a tension between the aims of RE and the agenda of fundamental British values. The author argues that fundamental British values and the requirements of the Prevent duty 2015 amount to a securitization of education which fundamentally alters the relationship between teachers and learners. The book presents these developments in education policy as a radical discursive shift drawing from in depth individual and group interviews with 52 secondary teachers of religious education the book foregrounds the views of BAME teachers and argues for a nuanced and inclusive approach to civic and values education.

**Selected Water Resources Abstracts**, 1990-05      **British Car Advertising of the 1960s** Heon

Stevenson, 2015-03-27. During the 1960s the automobile finally secured its position as an indispensable component of daily life in Britain. Car ownership more than doubled from approximately one car for every 10 people in 1960 to one car for every 4.8 people by 1970. Consumers no longer asked 'Do we need a car?' but 'What car shall we have?' This well illustrated history analyzes how both domestic car manufacturers and importers advertised their products in this growing market identifying trends and themes. Over 180 advertisement illustrations are included. *Library Journal*, 1987-07. *Official Reports of the Debates of the House of Commons of the Dominion of Canada* Canada. Parliament.
