Goodbye California:

Goodbye California Alistair MacLean ,1978 Goodbye California John Culea,2020-06-12 Every day more than 200 people move to Texas from California After living in California for 40 years John and Patti Culea joined the mass exodus and in May 2020 became Texans Goodbye California Why it was time to go and how we did it is the story from the beginning to the end of their adventure The book details the reasons why they did what only a few years ago they would have never thought possible They know other Californians share their dismay at what has happened to the once Golden state and hope this book can be an encouragement to them The Hummingbird's Nest Helen Dumas,2013-10-25 The Hummingbird s Nest tells the story of a relationship between a mother a writer in her 60s and a daughter an artist lawyer in her early 30s who has also recently become a mother herself Over the course of the story the daughter is faced with multiple diagnoses of cancer and is given a poor prognosis The daughter blames her mother for making her sick while at the same time asking her mother to give her hope and the strength to go on Through the telling of her own life story the mother infuses her daughter with the understanding that even though she is a cancer patient she does have the strength to face her life as a wife mother and professional woman The hummingbird s nest which gives the book its title is a metaphor for that place in our hearts where we feel safe despite the adversities that life throws in our path Catalog of Copyright Entries Library of Congress.
