**The Book of Encouragement and Consolation** Goscelin (of Saint-Bertin), 2012 Goscelin of St Bertin's Book of Encouragement and Consolation Liber Confortatorius is extraordinary both as an example of high medieval spiritual practice and as a record of a personal relationship. Written in about 1083 by the monk Goscelin to a protegee and personal friend the recluse Eva it takes up the tradition of St Jerome's letters of spiritual guidance to women and anticipates medieval advice literature for anchoresses. As a compendious treatise incorporating numerous exempla excerpts from theological discussions and advice on meditative practice it has much to tell us about the intellectual interests and preoccupations of religious people in the late eleventh century. As a personal document it allows a fascinating and uncommonly intimate insight into the psychology of religious life the sense of self the construction of gender and the relationships between men and women in the high Middle Ages. Back cover Goscelin of Saint-Bertin: The Hagiography of the Female Saints of Ely Rosalind C. Love, 2004-02-05 Goscelin monk of Saint Bertin who came to England in the early 1060s was one of the most prolific hagiographers of the Anglo Saxon saints. William of Malmesbury described him as second to none since Bede in the celebration of the English saints. Part of his career was spent in wandering exile and one of the places Goscelin stayed briefly was Ely whose twelfth century house history portrays him working late at night on verses commemorating Ely's patroness St thelfryth. By the late tenth century the cult of thelfryth the seventh century virgin queen whose two unconsummated marriages were recounted in Bede's *Historia Ecclesiastica* had been combined with that of her sister Seaxburh and of another supposed sister Wihtburh whose relics were translated from East Dereham in Norfolk to Ely in 974. To this group were added Seaxburh's daughter Eormenhild and Eormenhild's daughter W rburh. A collection of the Lives of these female saints some probably the work of Goscelin is preserved in three twelfth century Ely manuscripts. Taken together these texts offer a fascinating insight into Ely's view of the women venerated by the community and of its own past history. **Herman the Archdeacon and Goscelin of Saint-Bertin** Herman (the Archdeacon), 2014-04 Brand new edited translations of the Miracles of St Edmund two major Latin miracle collections compiled by Herman the Archdeacon and an anonymous hagiographer who Licence proposes was Goscelin of Saint Bertin The Liber Confortatorius of Goscelin of Saint Bertin. [Edited by Charles H. Talbot.] Lat Charles Hugh TALBOT, 1955 The liber confortatorius of Goscelin of Saint Bertin Goscelinus Monachus, *Guidance for Women in Twelfth-Century Convents* Vera Petch Morton, 2012 Collection of letters and texts offering guidance for nuns and including selections from Abelard's letters to Heloise. These translated letters and texts composed for younger and older women in twelfth century convents illuminate the powerful medieval ideals of virginity and chastity. Abelard's history of women's roles in the church and his letter on women's education both written for Heloise in her work as abbess are seen here alongside previously untranslated letters and texts for abbesses and nuns in England and France. An interpretive essay explores the practical and spiritual engagement of women's convents with medieval

commemorative and memorial practices showing that the professional concern of women religious with death goes far beyond the stereotype of nuns as dead to the world or enclosed in living death VERA MORTON gained an MA in Medieval Studies at the University of Liverpool in 1994 JOCELYN WOGAN BROWNE is Professor of English at Fordham University NY

The Royal Saints of Anglo-Saxon England Susan J. Ridyard, 1988 Within Anglo Saxon England there was a strong and enduring tradition of royal sanctity of men and women of royal birth who in an age before the development of papal canonisation came to be venerated as saints by the regional church This study which focuses on some of the best documented cults of the ancient kingdoms of Wessex and East Anglia is a contribution towards understanding the growth and continuing importance of England's royal cults The author examines contemporary and near contemporary theoretical interpretations of the relationship between royal birth and sanctity analyses in depth the historical process of cult creation and addresses the problem of continuity of cult in the aftermath of the Norman Conquest of 1066 An understanding therefore emerges of the place of the English royal saint not only in Anglo Saxon society but also in that of the Anglo Norman realm **The Cambridge History of Early Medieval English Literature** Clare A. **Women, Writing and Religion in England and Beyond, 650-1100** Diane Watt, 2019-12-12 Women's literary histories usually start in the later Middle Ages but recent scholarship has shown that actually women were at the heart of the emergence of the English literary tradition Women Writing and Religion in England and Beyond 650 1100 focuses on the period before the so called Barking Renaissance of women's writing in the 12th century By examining the surviving evidence of women's authorship as well as the evidence of women's engagement with literary culture more widely Diane Watt argues that early women's writing was often lost suppressed or deliberately destroyed In particular she considers the different forms of male overwriting to which she ascribes the multiple connotations of destruction preservation control and suppression She uses the term to describe the complex relationship between male authors and their female subjects to capture the ways in which texts can attempt to control and circumscribe female autonomy Written by one of the leading experts in medieval women's writing Women Writing and Religion in England and Beyond 650 1100 examines women's literary engagement in monasteries such as Ely Whitby Barking and Wilton Abbey as well as letters and hagiographies from the 8th and 9th centuries Diane Watt provides a much needed look at women's writing in the early medieval period that is crucial to understanding women's literary history more broadly

*The Normans and the 'Norman Edge'* Keith Stringer, Andrew Jotischky, 2019-11-26 Modern historians of the Normans have tended to treat their enterprises and achievements as a series of separate and discrete histories Such treatments are valid and valuable but historical understanding of the Normans also depends as much on broader approaches akin to those adopted in this book As the successor volume to Norman Expansion Connections Continuities and Contrasts it complements and significantly extends its findings to provide a fuller appreciation of the roles played by the Normans as one of the most dynamic and transformative forces in the history of medieval Outer Europe It includes panoramic essays that dissect the conceptual and methodological issues concerned suggest strategies for avoiding associated pitfalls and indicate how far and in what ways the Normans and their legacies served to reshape sociopolitical landscapes across a vast geography extending from the remoter corners of the British Isles to the Mediterranean basin Leading experts in their fields also provide case by case analyses set within and between different areas of themes such as lordship and domination identities and identification naming patterns marriage policies saints cults intercultural exchanges and diaspora homeland

connections The Normans and the Norman Edge therefore presents a potent combination of thought provoking overviews and fresh insights derived from new research and its wide ranging comparative focus has the advantage of illuminating aspects of the Norman past that traditional regional or national histories often do not reveal so clearly It likewise makes a major contribution to current Norman scholarship by reconsidering the links between Norman expansion and state formation the extent to which Norman practices and priorities were distinctive the balance between continuity and innovation relations between the Normans and the indigenous peoples and cultures they encountered and not least forms of Norman identity and their resilience over time An extensive bibliography is also one of this book s strengths Architecture and Interpretation Jill Franklin,T. White,Kate Gilbert,2014 A full and provocative reappraisal of the Bayeux Tapestry its origins design and patronage Aspects of the Bayeux Tapestry in fact an embroidered hanging have always

remained mysterious despite much scholarly investigation not least its design and patron Here in the first full length interdisciplinary approach to the subject the authors an art historian and a historian consider these and other issues Rejecting the prevalent view that it was commissioned by Odo the bishop of Bayeux and half brother of William the Conqueror or by some other comparable patron they bring new evidence to bear on the question of its relationship to the abbey of St Augustine s Canterbury From the study of art historical archeological literary historical and documentary materials they conclude that the monks of St Augustine s designed the hanging for display in their abbey church to tell their own story of how England was invaded and conquered in 1066 Elizabeth Carson Pastan is a Professor of Art History at Emory University Stephen D White is Asa G Candler Professor of Medieval History emeritus Emory University and an Honorary Professor of Mediaeval History at the University of St Andrews **England in Europe** Elizabeth Muir Tyler,

**Wonderful to Relate** Rachel Koopmans,2011-11-29 While the late Anglo Saxons rarely recorded saints posthumous miracles a shift occurred as monastic writers of the late eleventh and twelfth centuries started to preserve hundreds of the stories they had heard of healings acts of vengeance resurrections recoveries and other miraculous deeds effected by their local saints Indeed Rachel Koopmans contends the miracle collection quickly became a defining genre of high medieval English monastic culture Koopmans surveys more than seventy five collections and offers a new model for understanding how miracle stories were generated circulated and replicated She argues that orally exchanged narratives carried far more propagandistic power than those preserved in manuscripts stresses the literary and memorial roles of miracle collecting and traces changes in form and content as the focus of the collectors shifted from the stories told by religious colleagues to those told by lay visitors to their churches Wonderful to Relate highlights the importance of the two massive collections written by Benedict of Peterborough and William of Canterbury in the wake of the murder of Thomas Becket in 1170 Koopmans provides the first in depth examination of the creation and influence of the Becket compilations often deemed the greatest of all medieval miracle collections In a final section she ponders the decline of miracle collecting in the thirteenth century which occurred with the advent of formalized canonization procedures and theological means of engaging with the miraculous

**Symbolic Reproduction in Early Medieval England** Katharine Sykes,2024-06-27 In the early Middle Ages the conversion of the early English kingdoms acted as a catalyst for significant social and cultural change One of the most visible of these changes was the introduction of a new type of household the monastic household These reproduced through education and training rather than biological means their inhabitants practised celibacy as a lifelong state rather than as a stage in the life course Because monastic households depended on secular households to produce the next generation of recruits previous studies have tended to view them as more mutable than their secular counterparts which are implicitly regarded as natural and ahistorical Katharine Sykes charts some of the significant changes to the structure of households between the seventh to eleventh centuries as ideas of spiritual non biological reproduction first fostered in monastic

households were adopted in royal households in the tenth and eleventh centuries and as ideas about kinship that were generated in secular households such as the relationship between genealogy and inheritance were picked up and applied by their monastic counterparts. In place of binary divisions between secular and monastic, biological and spiritual, real and imagined, Sykes demonstrates that different forms of kinship and reproduction in this period were intimately linked.
