the penetration of the fashionable anti ecclesiastical views of the Encyclopedists into Russia the aristocrats had grown indifferent to religion The spiritual vacuum created as a result of such conditions could not last however for a prolonged period of time least of all during the decades following the 1860 s when Russia s moral socio political and religious problems were most acute The subsequent quest for salvation and the general religious inquiry among Russia s elite as they were known in the West manifested itself chiefly in the writings of such profound religious and philosophical thinkers as V Solov'ev K Leont'ev N Fedorov Dostoevskij and Tolstoj They constitute however only a fraction of those tormented by the longing for religious truth and guidance in an age of transition and uncertainty There existed among Russia s aristocracy in the second half of the nineteenth century a widespread socio religious movement known as Slavophilism or Slavism which aimed for a religious renovation and with it a transformation of Russia on an ethical and moral basis These aristocrats were men and women who in their youth were indifferent to all faith but who had never abandoned the search for a solution to their own and to Russia s problems The solution to these problems they believed to be based on moral and religious principles found in Evangelical Christianity *Religious Book Review* ,1978 Religion and American Culture David G.
