## **Gosudarstvo Ili Revoliutsiia:**

**A Companion to the Russian Revolution** Daniel Orlovsky, 2020-08-21 A compendium of original essays and contemporary viewpoints on the 1917 Revolution The Russian revolution of 1917 reverberated throughout an empire that covered one sixth of the world It altered the geo political landscape of not only Eurasia but of the entire globe The impact of this immense event is still felt in the present day The historiography of the last two decades has challenged conceptions of the 1917 revolution as a monolithic entity the causes and meanings of revolution are many as is reflected in contemporary scholarship on the subject A Companion to the Russian Revolution offers more than thirty original essays written by a team of respected scholars and historians of 20th century Russian history Presenting a wide range of contemporary perspectives the Companion discusses topics including the dynamics of violence in war and revolution Russian political parties the transformation of the Orthodox church Bolshevism Liberalism and more Although primarily focused on 1917 itself and the singular Revolutionary experience in that year this book also explores time periods such as the First Russian Revolution early Soviet government the Civil War period and even into the 1920 s Presents a wide range of original essays that discuss Brings together in depth coverage of political history party history cultural history and new social approaches Explores the long range causes influence on early Soviet culture and global after life of the Russian Revolution Offers broadly conceived contemporary views of the revolution largely based on the author s original research Links Russian revolutions to Russian Civil Wars as concepts A Companion to the Russian Revolution is an important addition to modern scholarship on the subject and a valuable resource for those interested in Russian Late Imperial or Soviet history as well as anyone interested in Revolution as a global phenomenon [Russian Baptists and Spiritual Revolution, 1905-1929](#) Heather J. Coleman, 2005-04-20 a fascinating read for everyone interested in Russia religion and modernity Nadieszda Kizenko In the early 20th century Baptists were the fastest growing non Orthodox religious group among Russians and Ukrainians Heather J Coleman traces the development of Baptist evangelical communities through a period of rapid industrialization war and revolution when Russians found themselves asking new questions about religion and its place in modern life Baptists faith helped them navigate the problems of dissent of order and disorder of modernization and westernization and of national and social identity in their changing society Making use of newly available archival material this important book reveals the ways in which the Baptists own experiences and the widespread discussions that they generated illuminate the emergence of new social and personal identities in late Imperial and early Soviet Russia the creation of a public sphere and a civic culture and the role of religious ideas in the modernization process *The French Revolutionary Tradition in Russian and Soviet Politics, Political Thought, and Culture* Jay Bergman, 2019-08-14 Because they were Marxists the Bolsheviks in Russia both before and after taking power in 1917 believed that the past was prologue that embedded in history was a Holy Grail a series of mysterious but nonetheless accessible and comprehensible universal laws that explained the course of history from

beginning to end Those who understood these laws would be able to mould the future to conform to their own expectations But what should the Bolsheviks do if their Marxist ideology proved to be either erroneous or insufficient if it could not explain or explain fully the course of events that followed the revolution they carried out in the country they called the Soviet Union Something else would have to perform this function The underlying argument of this volume is that the Bolsheviks saw the revolutions in France in 1789 1830 1848 and 1871 as supplying practically everything Marxism lacked In fact these four events comprised what for the Bolsheviks was a genuine Revolutionary Tradition The English Revolution and the Puritan Commonwealth of the seventeenth century were not without utility the Bolsheviks cited them and occasionally utilized them as propaganda but these paled in comparison to what the revolutions in France offered a century later namely legitimacy inspiration guidance in constructing socialism and communism and not least useful fodder for political and personal polemics

*Государство или революция?* Елена Афанасьева, 2005      *Great Soviet Encyclopedia* Aleksandr Mikhailovich Prokhorov, 1973      **Soviet Studies of Premodern China** Gilbert Rozman, 1984 The first complete survey of Soviet work on premodern Chinese literature and history      **The Transitions of Local Administration Culture in Russia** Anna-Liisa Heusala, 2005      *Putinism - Post-Soviet Russian Regime Ideology* Mikhail Suslov, 2024-02-23 A key question for the contemporary world What is Putin's ideology This book analyses this ideology which it terms Putinism It examines a range of factors that feed into the ideology conservative thought in Russia from the nineteenth century onwards Russian and Soviet history and their memorialisation Russian Orthodox religion and its political connections a focus on traditional values and Russia's sense of itself as a unique civilisation different from the West and due a special respected place in the world The book highlights that although the resulting ideology lacks coherence and universalism comparable to that of Soviet era Marxism Leninism it is nevertheless effective in aligning the population to the regime and is flexible and applicable in different circumstances And that therefore it is not attached to Putin as a person is likely to outlive him and is potentially appealing elsewhere in the world outside Russia especially to countries that feel belittled by the West and let down by the West's failure to resolve problems of global injustice and inequality      *The Vexing Case of Igor Shafarevich, a Russian Political Thinker* Krista Berglund, 2012-02-29 This is the first comprehensive study about the non mathematical writings and activities of the Russian algebraic geometer and number theorist Igor Shafarevich b 1923 In the 1970s Shafarevich was a prominent member of the dissidents human rights movement and a noted author of clandestine anti communist literature in the Soviet Union Shafarevich's public image suffered a terrible blow around 1989 when he was decried as a dangerous ideologue of anti-Semitism due to his newly surfaced old manuscript Russophobia The scandal culminated when the President of the National Academy of Sciences of the United States suggested that Shafarevich an honorary member resign The present study establishes that the allegations about anti-Semitism in Shafarevich's texts were unfounded and that Shafarevich's terrible reputation was cemented on a false basis      *The Russo-Japanese War in Cultural Perspective,*

1904-05 D. Wells, S. Wilson, 1999-08-24 The Russo Japanese War of 1904-05 has been widely seen as a historical turning point. For the first time in modern history an Asian and a European country competed on equal terms overturning the prevailing balance of power. Based on a wide range of original source material in Russian, Japanese and other languages, this book goes beyond the military and international political grand narratives to examine the war's social, cultural, literary and intellectual impact in their historical context. In Japan, the war reinforced the country's self-image as a coming nation, while in Russia, combined with the revolution of 1905 and later political and social upheaval, it was seen as separating the old regime from the new. Throughout the world, spirit was seen to be a decisive factor and cultural considerations determined the war's interpretation. Featuring contributions by established scholars in the fields of military history and the history and literature of both Russia and Japan, this book offers for the first time a comparative perspective on the symbolic meaning of the conflict.

**Perestroika and International Law** William E. Butler, 2024-08-19 *Stalin* Stephen Kotkin, 2015-10-13 In his biography of Stalin, Kotkin rejects the inherited wisdom about Stalin's psychological makeup, showing us instead how Stalin's near-paranoia was fundamentally political and closely tracks the Bolshevik revolution's structural paranoia, the predicament of a Communist regime in an overwhelmingly capitalist world surrounded and penetrated by enemies. At the same time, Kotkin posits the impossibility of understanding Stalin's momentous decisions outside of the context of the history of imperial Russia.

**The Russian Civil War** Evan Mawdsley, 2009-02-24 The best book ever written on the Russian civil war. A first-rate work of scholarly synthesis. Robert McNeal. In St. Petersburg on October 25, 1917, the Bolshevik Party stormed the capital city and turbulent years that brought the ironfisted seized the power over the Russian Provisional Soviet regime to political power. Government which had been operating ineffectively since the abdication of Tsar Nicholas II eight months before. That October Revolution began the Russian Civil War which in three years would cost the largest country in the world more than seven million lives. It was an apocalyptic struggle replete with famine and pestilence but out of the struggle a new social order would rise. The Soviet Union. Mawdsley offers a lucid, superbly detailed account of the men and events that shaped twentieth-century communist Russia. He draws upon a wide range of sources to recount the military course of the war as well as the hardship the conflict brought to a country and its people for the victory and the reconstruction of the state under the Soviet regime came at a painfully high economic and human price. **Moscow**

**Theatres for Young People: A Cultural History of Ideological Coercion and Artistic Innovation, 1917-2000** Manon van de Water, 2006-04-15 This book shows how the totalitarian ideology of the Soviet period shaped the practices of Soviet theatre for youth. It weaves together politics, pedagogy and aesthetics to reveal the complex intersections between theatre and its socio-historical conditions. It paints a picture of the theatrical developments from 1917 through to the new millennium.

The Cross and the Sickle Catherine Evtuhov, 2018-10-18 Catherine Evtuhov resurrects the brilliant and contradictory currents of turn of the century Kiev, Moscow and St. Petersburg through an intellectual biography of Sergei Bulgakov, 1871-

1944 one of the central figures of the Silver Age The son of a provincial priest Bulgakov served first as one of Russia's most original and influential interpreters of Marx and then went on to become the century's most important theologian of the Orthodox faith As Evtuhov recounts the story of Bulgakov's spiritual evolution she traces the impact of seemingly opposed philosophical and religious world views on one another and on the course of political events In the first comprehensive analysis of Bulgakov's most important religious philosophical work *Philosophy of Economy* Evtuhov identifies a perceptual revolution in Russian thinking about economy a significant contribution to European modernist thought which both shaped and grew out of contemporary debates over land reforms She reconstructs Bulgakov's vision of an Orthodox constitutional Russia shows how he tried to put it into practice in the wake of the February Revolution and demonstrates its importance for a large and influential portion of Russian society

*Soviet Science under Control* Jeffrey L. Roberg, 2016-07-27 Roberg examines the relationship between the political leadership of the Soviet Union and Soviet science Previously this relationship was typically characterized as one of Communist Party dominance over the sciences He argues that the relationship between scientists and the leadership is better viewed as bi-directional The author concludes that scientists had an influence on policy makers in the areas of nuclear policy and human rights although not to the same degree as the Party had on science and scientists

**Widener Library Shelflist: Slavic history and literatures** Harvard University. Library, 1971 Monthly Index of Russian Accessions Library of Congress. Processing Department, 1961

*Our Daily Bread* Kate Transchel, Elena Osokina, 2015-03-04 Drawing on newly available archival materials including official documents reports and personal accounts this remarkable study presents a detailed picture of the living standards of various social groups in prewar Soviet Russia and the role of state controlled distribution of food and goods as a tool of the Stalinist dictatorship The study offers a new perspective not only on the period of collectivization industrialization and terror but also on the regime's most rudimentary method of controlling human behavior and reshaping the social order In her conclusion the author analyzes the long term impacts of the Stalinist dictatorship of distribution from bureaucratization to rural depopulation to the emergence of a distinctive type of black market economy

Monthly List of Russian Accessions Library of Congress. Processing Department, 1952-11
