The Indigo Children Beth Singler, 2017-09-18 The Indigo Child concept is a contemporary New Age redefinition of self Indigo Children are described in their primary literature as a spiritually psychically and genetically advanced generation Born from the early 1980s the Indigo Children are thought to be here to usher in a new golden age by changing the world s current social paradigm However as they are paradigm busters they also claim to find it difficult to fit into contemporary society Indigo Children recount difficult childhoods and school years and the concept has also been used by members of the community to reinterpret conditions such as Attention Deficit Hyperactive Disorder ADHD and autism Cynics however can claim that the Indigo Child concept is an example of special snowflake syndrome and parodies abound This book is the fullest introduction to the Indigo Child concept to date Employing both on and offline ethnographic methods Beth Singler objectively considers the place of the Indigo Children in contemporary debates around religious identity self creation online participation conspiracy theories race and culture and definitions of the New Age movement
