Bad Education Lee Edelman, 2022-12-05 Long awaited after No Future and making queer theory controversial again Lee Edelman s Bad Education proposes a queerness without positive identity a queerness understood as a figural name for the void itself unnamable around which the social order takes shape Like Blackness woman incest and sex queerness as Edelman explains it designates the antagonism the structuring negativity preventing that order from achieving coherence But when certain types of persons get read as literalizing queerness the negation of their negativity can seem to resolve the social antagonism and totalize community By translating the nothing of queerness into the something of the queer the order of meaning defends against the senselessness that undoes it thus mirroring Edelman argues education s response to queerness its sublimation of irony into the meaningfulness of a world Putting queerness in relation to Lacan s ab sens and in dialogue with feminist and Afropessimist thought Edelman reads works by Shakespeare Jacobs Almod var Lemmons and

Haneke among others to show why queer theory's engagement with queerness necessarily results in a bad education that is destined to teach us nothing

Back to the Stone Age Ben Pitcher, 2022-12-15 Prehistoric human life is a common reference point in contemporary culture inspiring attempts to become happier healthier or better people Exploited by capitalism overwhelmed by technology and living in the shadow of environmental catastrophe we call on the prehistoric to escape the present and to model alternative ways of living our lives In *Back to the Stone Age* Ben Pitcher explores how ideas about race are tightly woven into the powerful origin stories we use to explain who we are where we came from and what we are like Using a broad range of examples from popular culture from everyday practices like lighting fires and walking in the woods to engagements with genetic technologies and Neanderthal DNA from megaliths and museum mannequins to television shows and best selling nonfiction Pitcher demonstrates how prehistory is alive in the twenty first century and argues that popular flights back in time provide revealing insights into present day anxieties obsessions and concerns *Back to the Stone Age* shows that the human past is not set in stone By opening up the prehistoric to critical contestation Pitcher places racial justice at the centre of questions about the existence and persistence of *Homo sapiens* in the contemporary world
