Is Paris Still the Capital of the Nineteenth Century? Hollis Clayson, 2017-07-05 Is Paris Still the Capital of the Nineteenth Century The question that guides this volume stems from Walter Benjamin's studies of nineteenth century Parisian culture as the apex of capitalist aesthetics Thirteen scholars test Benjamin's ideas about the centrality of Paris formulated in the 1930s from a variety of methodological perspectives Many investigate the underpinnings of the French capital's reputation and mythic force which was based largely upon the city's capacity to put itself on display Some of the authors reassess the famed centrality of Paris from the vantage point of our globalized twenty first century by acknowledging its entanglements with South Africa Turkey Japan and the United States The volume equally studies a broader range of media than Benjamin did himself from modernist painting and printmaking photography and illustration to urban planning The essays conclude that Paris did in many ways function as the epicenter of modernity's international reach especially in the years from 1850 to 1900 but did so only as a consequence of the idiosyncratic force of its mythic image Above all the essays affirm that the study of late nineteenth century Paris still requires nimble and innovative approaches commensurate with its legend and global aura

shape and reveal essential human concerns

Shifting Stones Shaping the Past begins with an analysis of the ornamentation of Andhra's ancient Buddhist sites such as the lavish limestone reliefs depicting scenes of devotion and lively narratives on the main stupa at Amaravati. As many such monuments have fallen into disrepair, it is tempting to view them as ruins; however, through an examination of recent state-sponsored tourism campaigns and new devotional activities at the sites, Becker shows that the monuments are in active use and even ascribed innate power and agency. Becker finds intriguing parallels between the significance of imagery in ancient times and the new social, political, and religious roles of these objects and spaces. While the precise functions expected of these monuments have shifted, the belief that they have the ability to effect spiritual and mental transformation has remained consistent. Becker argues that the efficacy of Buddhist art relies on the careful attention of its makers to the formal properties of art and to the harnessing of the imaginative potential of the human senses. In this respect, Buddhist art mirrors the teaching techniques attributed to the Buddha, who often engaged his pupils' desires and emotions as tools for spiritual progress.

Intimate Outsiders Mary Roberts, 2007-12-10

Identity, Community and Australian Artists, 1890-1914 Kate R. Robertson, 2019-09-19

An irresistible call lured Australian artists abroad between 1890 and 1914, a transitional period immediately pre and post federation. Travelling enabled an extension of artistic frontiers and Paris, the centre of art, and London, the heart of the Empire, promised wondrous opportunities. These expatriate artists formed communities based on their common bond to Australia, enacting their Australian-ness in private and public settings. Yet they also interacted with the broader creative community, fashioning a network of social and professional relationships. They joined ateliers in Paris such as the Académie Julian, clubs like the Chelsea Arts Club in London, and visited artist colonies including St Ives in England and Giverny in France. Australian artists persistently sought a sense of belonging, negotiating their identity through activities such as plays, balls, tableaux, parties, dressing up, and of course, the creation of art. While individual biographies are integral to this study, it is through exploring the connections between them that it offers new insights. Through utilising extensive archival material, much of which has limited or no publication history, this book fills a gap in existing scholarship. It offers a vital exploration and reconsideration of the fluidity of identity, place, and belonging in the lives and work of Australian artists in this juncture in British-Australian history.

The Routledge Hispanic Studies Companion to Nineteenth-Century Spain Elisa Martí-López, 2020-09-24

The Routledge Hispanic Studies Companion to Nineteenth-Century Spain brings together an international team of expert contributors in this critical and innovative volume that redefines nineteenth-century Spain in a multi-national, multi-lingual, and transnational way. This interdisciplinary volume examines questions moving beyond the traditional concept of Spain as a singular, homogenous entity to a new understanding of Spain as an unstable set of multipolar and multilingual relations that can be inscribed in different translational ways. This

invaluable resource will be of interest to advanced students and scholars in Hispanic Studies **Arab France** Ian Coller, 2011 Ian Coller's fascinating book explores the making of modern France during the Napoleonic period and under the Restoration from the outside inward. He examines the life of Arab migrants in France, their role as outsiders and victims but also as participants in the creation of the modern nation and its empire. In the process, he also throws much light on the history of the contemporary Arab Middle East and North Africa. C. A. Bayly, University of Cambridge **Becoming Arab in London** Ramy M. K. Aly, 2015-01-20 This is the first ethnographic exploration of gender, race, and class amongst British born or raised Arabs in London. It takes a critical look at the idea of Arabness and the ways in which their ethnicities are created and expressed in the city. Looking at everyday spaces, encounters, and discourses, the book explores the lives of young people and the ways in which they achieve Arabness. It uncovers stories of growing up in London, the social codes at Shisha cafes, and the sexual politics and ethnic self-portraits which are present in British Arab men and women. Drawing on the work of Judith Butler, *Becoming Arab in London* reveals the need to move away from the notion of identity and towards a performative reading of race, gender, and class. What emerges is an innovative contribution to the study of diaspora and difference in contemporary Britain Art's Agency and Art History Robin Osborne, Jeremy Tanner, 2007-06-11 *Art's Agency and Art History* re-articulates the relationship of the anthropology of art to key methodological and theoretical approaches in art history, sociology, and linguistics. Explores important concepts and perspectives in the anthropology of art. Includes nine groundbreaking case studies by an internationally renowned group of art historians and art theorists. Covers a wide range of periods including Bronze Age China, Classical Greece, Rome, and Mayan, as well as the modern Western world. Features an introductory essay by leading experts which helps clarify issues in the field. Includes numerous illustrations **Mughal Occidentalism** Mika Natif, 2018-08-13 In *Mughal Occidentalism*, Mika Natif elucidates the meaningful and complex ways in which Mughal artists engaged with European art and techniques from the 1580s to 1630s. Using visual and textual sources, this book argues that artists repurposed Christian and Renaissance visual idioms to embody themes from classical Persian literature and represent Mughal policy, ideology, and dynastic history. A reevaluation of illustrated manuscripts and album paintings incorporating landscape scenery, portraiture, and European objects demonstrates that the appropriation of European elements was highly motivated by Mughal concerns. This book aims to establish a better understanding of cross-cultural exchange from the Mughal perspective by emphasizing the agency of local artists active in the workshops of Emperors Akbar and Jahangir The Buried Life of Things Simon Goldhill, 2015 Simon Goldhill offers a fascinating new perspective on the material culture of nineteenth-century Britain **Delacroix's Moroccans** Jennifer Olmsted, 2025-04-08 *The Women of Algiers in Their Apartment* is arguably Eugène Delacroix's best-known work from his trip to Morocco in 1832, and the attention scholars have paid to it has obscured a crucial fact about Delacroix's Moroccan subjects: most of his paintings of North Africa depict men rather than women. After serving as a diplomat's companion on a mission to Morocco,

Delacroix went on to devote over three quarters of his massive North African oeuvre to the military prowess effective leadership equestrian virtuosity and elegant dress of Moroccan men Using the evidence of his writings sketches and paintings Olmsted argues that rather than embodying a typical colonialist fantasy Delacroix s paintings of Moroccan men instead show his subjects as models of heroic masculinity and political sovereignty a position that ran counter to prevailing French attitudes toward North Africans In this way Delacroix s Moroccans intervenes in the discourse of imperialism to examine the multiple heterogeneous features of cultural response and provides nuanced readings of the artist s work that support the idea that European constructions of non European cultures were not monolithic Olmsted s multifaceted analysis creates a powerful and original understanding of Delacroix s Moroccan oeuvre and a counternarrative to the colonialist imagery of his era Through close attention to Delacroix s paintings drawings and writings as well as their historical and political contexts this book illuminates the artist s practice and offers a fresh avenue for assessing colonialism and art produced within colonial contexts
