A STUDENT'S GUIDE TO EDUCATION STUDIES

Fourth edition

Education Studies A Students Guide

**Mark Pulsford, Rebecca Morris, Ross
Purves**

Education Studies A Students Guide:

A Student's Guide to Education Studies Catherine A. Simon, Stephen Ward, 2019-12-05 This new edition of *A Student's Guide to Education Studies* is an essential resource for any undergraduate making their first explorations into the fascinating world of education. It explores a wide range of alternative visions of education encouraging students to challenge the perceived notions about learning and knowledge. Offering new perspectives and powerful ideas for discussion on a variety of long standing topics such as class, race and gender, the book is organised around five enduring themes: Policy and Politics, Global and Environmental Education, Knowledge and Learning, Childhood and Youth, Professionalism and Employment. With a distinctive international and global focus, this new edition has been extensively updated to reflect the latest research and thinking in the field and features new chapters on The sociology of education and the philosophy of education, Inclusion, Childhood and youth, Professionalism and work based learning, Populism in politics. Including summary points, questions for discussion and annotated suggestions for further reading, this book provides the theoretical background needed to carry out a critical analysis of education policy and practice and is an essential resource for all students of Education Studies.

Education Studies, 2004 *A Student's Guide to Education Studies* Stephen Ward, 2013-01-04 *A Student's Guide to Education Studies* is a much needed resource for any undergraduate making their first explorations into the fascinating world of education. The first publication of this book in 2002 helped to define the nature of the subject, introducing topics into the field which had not been previously considered. This new edition brings the subject up to date with the latest thinking and research on policy, globalisation, learning and knowledge, offering an accessible and wide ranging introduction to a diverse range of topics and issues in education. Now fully updated to reflect rapid and significant changes in the field, this third edition considers topical issues including the political dimension of education, the national debate about schooling and poverty, the marketisation of education, the end of Every Child Matters, the Coalition Government's policies for academies and free schools. Organised around three enduring themes: Education Policy and Politics, Global and Environmental Education and Learning, Knowledge and the Curriculum, each chapter contains summary points, questions for discussion and annotated suggestions for further reading. With a distinctive international and global focus, *A Student's Guide to Education Studies* is an essential resource for all students of Education Studies. [An Introduction to Education Studies](#) Sue Warren, 2009-03-08 *An Introduction to Education Studies* presents a concise overview for students who are new to this area of academic study. Part 1 introduces the reader to the main themes they will encounter in their study of education, such as the sociology of education, the philosophy of education, comparative education and ethics for educators. Part 2 explores the contexts within which education takes place in order to stimulate further thinking about education in action. Issues such as disaffection, pupil voice and breaking barriers to learning are introduced to give the reader a feel for such issues and how they might approach them. Through discussions of relevant literature and research and the use of case studies and exploratory activities, students are

encouraged to actively engage with their learning about theories and disciplines within the study of education and the contexts in which learners live and work Each chapter is written in an accessible style and provides the reader with start points for further study This book serves as a true course companion to meet the needs of students and lecturers working on Education Studies programmes Prospective teachers may also find the book of interest as the subject matter is discussed in terms of theory and practical applications in a range of educational contexts

Higher Education Studies in the Digital Environment - A Student Guide Anetta Čaplánová, Estera Szakadátová, 2022-08-01 Answering the question how to study effectively in the online education is one of the main topics on the implementation of type of studies The new teachers and students roles the online communication procrastination distractions mental well being time management or to find the answer to the question how to be a successful Online Learner are the basic points explained in this volume The COVID 19 pandemic brought attention to online learning and highlighted also the need to raise the quantity and quality of the educational technology The principles of online education are further elaborated in this book which readers are invited to read chronologically or as a reference based on their needs to learn more about key aspects to be considered to benefit most from the digital learning

Education Studies Stephen Ward, 2004-02-26 Written specifically for students on Education Studies degree courses yet also relevant for students on teacher training courses Education Studies A Student's Guide introduces a wide range of topics and issues from knowledge and learning and policy and schooling to the ways in which education is a force for change across the globe The book is split into three comprehensive sections which challenge our assumptions about education It explores a wide range of perspectives on education in different countries and cultures provides critiques of current policies and practice and analyzes learning and the nature of knowledge itself Specific topics covered include the global dimension in the curriculum cultural and religious plurality in education the effective teacher gender and educational achievement special educational needs and inclusion in mainstream schools ICT and learning for the future language power and education With chapter summaries questions for discussion and reflection and suggestions for further reading Education Studies A Student's Guide will be a valuable resource for all students of Education Studies as well as BEd and PGCE students

A Social History of Educational Studies and Research Gary McCulloch, Steven Cowan, 2017-07-20 A Social History of Educational Studies and Research examines the development of the study of education in the UK in its broader educational social and political context since its early beginnings in the first part of the twentieth century By providing a historical analysis of the contested growth of the field this book examines the significant contribution that has been made by institutions of higher education journals text books conferences centres and academic societies It discusses the problems and opportunities of the field and its prospects for survival and adaptation to current changes in the decades ahead The work draws on documentary sources social network analysis and interviews with leading figures from across the field This book highlights international influences on the development of educational studies and research in the

UK its role in the growing internationalisation of the field as a whole and also comparisons and contrasts with the nature of the field elsewhere It relates the development to the wider social political and economic changes affecting higher education in general and educational studies and research in particular It addresses the historical development of disciplines in higher education institutions and the nature extent and limitations of interdisciplinarity A Social History of Educational Studies and Research discuss the problems and opportunities facing the study of education today and its prospects of adapting to changes in the decades ahead It is a distinctive and original analysis of educational studies and research that provides the first comprehensive study of its type

Critical Histories in Care and Education Kate Brooks,2025-02-07 This groundbreaking and thought provoking book puts the care experience at the centre of education history Engaging and accessible Critical Histories in Care and Education provides historical insight to the growing field of care studies and reveals how nineteenth century assumptions and prejudices about care experienced pupils helped shape education policy and continue to do so today Drawing together original archive research with critical theory and written by an academic researcher and writer who is a foster carer herself the book challenges some of the key myths and stereotypes involving the care experience and shines an illuminating light on their origins Aimed primarily at undergraduate and postgraduate students in education this book identifies discursive threads and provides a fresh insight through a critical retelling of the history of the care system In combining the histories of care and education it challenges some taken for granted assumptions about both Throughout the book students are invited to critically examine relationships between gender class care and work and how they continue to impact on the role today The book is a vital resource for anyone involved in studying childhood education welfare and care and will appeal to anyone wanting to broaden their knowledge and critical understanding of this complex topic

Sociology for Education Studies Catherine A. Simon,Graham Downes,2020-02-05 Sociology for Education Studies provides a fresh look at the sociology of education focusing on themes such as habitus hegemony and intersectionality It supports students in applying sociological theory to their own educational experiences and developing an understanding of why social orders appear to be predetermined why the state continues to create education policy in certain forms and crucially how to make it better The book explores the multi faceted perspectives that influence the sociology of education and presents examples of the applications of sociology to a wide variety of different educational contexts including education in schools and in the community Chapters cover topics such as Morality education and social order Spaces of invisibility and marginalisation in schools The global political economy of education Rethinking the international perspective in Education Studies This accessible book is an essential read for students of Education Studies as well as those involved in teacher education and training

Education Studies Catherine Simon,2025-11-11 What does it mean to be a student of education This book offers an excellent introduction to the content and espoused purposes of Education Studies degree courses both undergraduate and postgraduate Education Studies has shifted from simply the theory for teacher training to a

popular university subject in its own right with a wide array of literature and research Covering core questions about who where and why education should take place the book analyses diverse approaches to the Education Studies curriculum the tension between theory and practice and the employment opportunities offered for graduates of Education Studies The book will appeal to those considering a career in teaching or looking for enhanced professional development through engagement with degree level studies It is also essential reading for students interested in the broader questions relating to education and society as well as those looking for careers in the wider education sector including local government charities and cultural industries

Resources in Education ,1997 **Education Studies** John Sharp,Les Hankin,Stephen Ward,2009-06-30 Education Studies continues to grow as a popular undergraduate area of study This core text addresses themes common to all Education Studies courses It benefits from a large list of contributors from key institutions This second edition includes chapters on education and employment new media and sex and relationships education and is fully revised and updated For each topic an overview and discussion are accompanied by features such as Research and Pause for Thought boxes to promote reflection and analysis and to encourage the reader to engage with the text Understanding Education Studies Mark Pulsford,Rebecca Morris,Ross Purves,2023-05-31 This book explores undergraduate education programmes in a new way Written by those at the forefront of teaching and learning it encourages students to delve beneath the surface of their degree subject and reveals important insights about the how why and where next for education studies With contributions from course leaders tutors current students and recent graduates this book offers insights from nearly 60 authors based in 20 different institutions from five different countries The chapters offer opportunities for readers to consider their own learning experiences in a wider context enhance their understanding of the degree course and actively shape the education studies community of the future Each chapter is written in an accessible way with questions to consider throughout and recommended readings at the end to advance readers thinking and reflections Chapters cover topics such as Education Studies development as a degree subject Its evolving identity values and purposes Teaching and assessment approaches in undergraduate education programmes How the subject develops students professional aptitudes and transferable skills Possibilities for advancing inclusion equity and justice in education at degree level These behind the scenes factors are brought to the fore through case studies and examples of how lecturers and students make sense of their teaching and learning With its unique approach to examining these issues this book is essential for students of Education Studies at undergraduate level while also being relevant for staff and postgraduate students in education

Education Studies Will Curtis,Stephen Ward,John Sharp,Les Hankin,2013-12-06 Education Studies continues to grow as a popular undergraduate area of study This core text addresses themes common to all Education Studies courses It benefits from a large list of chapters from key contributors at key institutions This third edition has been completely revised and updated with the addition of seven new chapters Themes newly explored include gender research the power of money and status and

alternatives to schooling This fully comprehensive text is accessibly written with learning features throughout to encourage students to approach issues critically Fully up to date and covering a huge range of themes for Education Studies students

Education Studies Dave Trotman, Helen Lees, Roger Willoughby, 2017-09-20 Written by educational specialists and including over fifty interdisciplinary entries this essential compendium offers accessible detailed definitions of the core concepts typically explored on undergraduate Education Studies courses Its interactive design clarifies topics at an introductory intermediate and advanced level supporting students across the three years of their undergraduate study The history and evolution of each concept is outlined with concepts practically grouped around four interrelated key educational categories the personal philosophy practice and power Key academic debates and points of contest are explored reference to real life educational examples are offered and reflective questions and further reading scaffold critical engagement Education Studies The Key Concepts is a bookshelf must have moving readers towards a coherent stance based on theory and research It is an easy to use resource for anyone looking to better understand education It is also useful for those researching education at postgraduate level to broaden their educational knowledge base outside their specific foci

Inclusive Education Zeta Brown, 2016-04-28 Inclusive education is complex multi faceted and ever changing and to date there has been no fixed definition of what is meant by the term inclusion leading to confusion about what inclusive education actually means in practice This key text introduces readers to the underlying knowledge and wider complexities of inclusion and explores how this can relate to practice Considering inclusion as referring to all learners it surveys the concept of inclusive practice in its broadest sense and examines its implementation in a variety of educational institutions Throughout the book international contributors consider this broader concept to critically evaluate the realities of practically implementing inclusive objectives Each chapter assesses key theories and concepts alongside a range of examples to encourage students to think critically and reappraise their own experience as learners Key topics covered include studying the definition of inclusion the relevance of pedagogy in inclusive practice how to lead and manage for inclusion the issue of inclusion in early years primary secondary and post 16 settings inclusive practice for families international perspectives on inclusive practice Fully illustrated with tasks case studies discussion questions and recommended reading Inclusive Education is essential reading for second and third year students looking to extend their research and writing and to develop their critical and reflective thinking
