Vanden, 2016-07-27 The Sandinista revolution brought dramatic social economic and political changes to Nicaragua in the 1980s but in the wake of the electoral defeat of the FSLN in 1990 the revolution has struggled to survive in the face of challenges from the Chamorro administration the US government and the International Monetary Fund Gains of the revolution in health care education Atlantic Coast autonomy agrarian reform and other areas have been systematically eroded However significant efforts have also been mounted especially in grass roots organizing and by women s organizations to protect the revolution s achievements Through a series of articles based on current research seven experts on contemporary Nicaragua draw a balance sheet on the gains of Sandinista revolution achieved by 1990 and assess the current status of the revolutionary project      Latin American Education Carlos Alberto Torres, 2019-03-06 This book offers a relevant sample of the current research on Latin American education in comparative perspective In their introduction Torres and Puiggros two of the most recognized researchers of Latin American education draw from political sociology of education theories of the state history of education and deconstructionist theories to focus on changes in state formation in the region and its implications for the constitution of the pedagogical subject in public schools Throughout the different chapters the contributors present and analyze the most relevant topics research agendas and some of the key theoretical and political problems of Latin American education      The Cultural Production of the Educated Person Bradley A. Levinson, Douglas E. Foley, Dorothy C. of the great educational and political philosophers of the 20th century In First Freire Torres a foremost Freire scholar has provided us with a wonderful and insightful analysis of the many facets of Freire s writings Particularly important is Torres ability to situate Freire s work in the political context that framed and defined his writings Hopefully First Freire will inspire a new generation of educators to move beyond the current neo liberal discussions about student test scores and what works to understand the political meaning of education Martin Carnoy Vida Jacks Professor of Education Stanford University Professor Torres successfully combines in unconventional ways his personal reminiscences of Freire with essays that illuminate Freire s political philosophy and thoughts on the anthropology of education demonstrating specific approaches one can use to engage in the method of thematic investigation proposed by Freire A considerable merit of this book is how it persuasively shows the timely relevance of the critical observations of this great Latin American thinker to contemporary society as we struggle to go beyond economic and technological globalization to rebuild our changed but still community oriented selves Nelly P Stromquist professor University of Maryland

struggle 1961 1991 and later carried into the post independence era The contributions to this volume reveal and interpret the links between development and developmentalist ideologies intensifying militarism and the controlling and disciplining of human lives and bodies by state institutions policies and discourses Also assessed are the multiple consequences of these policies for the Eritrean people and the ways in which such policies are resisted or subverted This insightful comparative volume places the Eritrean case in a broader global and transnational context **New Languages of the State** Bret Gustafson,2009-07-10 Analyzes bilingual intercultural education in Bolivia to show how indigenous backed proposals to reform the all Spanish education system to include indigenous languages and knowledges challenged neoliberal models of education and became part of the transf
