Children, Teachers and Schools in the History of British Columbia Jean Barman, Mona Gleason, 2003 This new edition explores the myriad ways that education broadly defined molds each of us in profound and enduring ways Laid against the supporting scaffolding of modern critical theory the chapters offer cutting edge perspectives of going to school in British Columbia How has education been tailored by race class gender How do representations of schools and schooling change over time and whose interests are served What echoes of current tensions can we hear in the past The book offers a glimpse of the deep contradictions inherent in an experience that we all share

Postsecondary Education in British Columbia Robert Cowin, 2018-11-15 The historical literature about postsecondary education in British Columbia as in many jurisdictions is fragmented paying unequal attention to public colleges and universities vocational colleges apprenticeship continuing education and private institutions Robert Cowin synthesizes these pieces providing a comprehensive overview of the emergence and evolution of the provincial postsecondary system He then defines three distinct theoretical lenses social justice human capital formation and marketization and applies each in turn to an analysis of five significant transitions This dynamic systems approach in which Cowin examines interactions across sectors allows him to delineate the cumulative and complementary ways in which sectors have affected one another Postsecondary Education in British Columbia provides a thoughtful critical analysis of the role of social justice human capital and the market in the development of the institutional arrangements the distribution of institutions by size mission type and location and policies that have shaped contemporary education in the province

The Lieutenant Governors of British Columbia , 2019-05-18 The office of lieutenant governor has been a constant in British Columbia from the province s colonial beginnings to the modern era Originally tasked with selecting the province s premier giving royal assent to provincial legislation and invested with the power to dismiss governments the role of the Crown s representative has continually evolved to meet the needs of society Today the office s constitutional powers largely focus on community functions but the role of lieutenant governor is more than ceremonial This was demonstrated after the 2017 provincial election when then Lieutenant Governor Judith Guichon accepted Premier Christy Clark s resignation and asked NDP leader John Horgan to attempt to form government rather than call a new election BC s early lieutenant governors were the force behind infrastructure initiatives such as building roads railways and ships and investing in electric utilities and the forest industry Although most came from the ranks of the British elite and often espoused policies that

denied First Nations land rights and opposed the immigration of Chinese and Japanese people over time the office became more representative of the province's diverse population. In recent years lieutenant governors have played an increasingly activist role celebrating cultural excellence and promoting literacy, creativity, environmental awareness. Chinese Canadian David Lam (1988-95) had a mandate of intercultural understanding. Iona Campagnolo (2001-7) the first woman to hold the position in BC focused on empowering youth and women and fostering a spirit of public inclusiveness at Government House, Steven Point. (2007-12) BC's first Indigenous lieutenant governor worked to establish libraries in First Nations communities. Chronologically arranged and rich with photographs, this work by historian Jenny Clayton paints a vivid picture of the lives of BC's thirty lieutenant governors. Clayton's biographical essays capture the distinct personalities and events that have characterized the office from 1871 to the present, offering a unique perspective on the evolution of the province.
