Education In The Rumanian Peoples Republ:

Globalization of an Educational Idea Ingrid Miethe, Tim Kaiser, Tobias Kriele, Alexandra Piepiorka, 2019-07-22 In this book authors showcase the worldwide spread of Workers Faculties as an example of both cooperation between socialist countries in education and globalization processes in the field of education Based on extensive research carried out in Cuban German Mozambican and Vietnamese archives as well as expert interviews it combines detailed case studies of educational transfers and policy implementation with a discussion of theoretical approaches to the study of globalization in and of education Research on Workers Faculties provides an especially interesting example for the study of educational transfer between socialist countries as well as for the interplay of such transfers with processes of globalisation for two reasons On one hand the first Workers Faculties were established already shortly after the October Revolution in Russia and Workers Faculties continue to exist in Cuba until today A study of these institutions therefore provides a dynamic perspective covering the whole period of the existence of the socialist camp On the other hand the spread of the Workers Faculty idea to four continents allows for an analysis that takes into account widely differing local contexts This book offers an analysis of general trends and particularities in the history of the global spread of the Workers Faculty idea and its implementation in local contexts Finally it discusses the results with a view towards theories of globalization in the field of education as well as of specificities of processes of socialist globalization *INTERDISCIPLINARY GENDERED TALKS: PROCEEDINGS BOOK*, 2024-01-01 This volume is the result of the International Conference Interdisciplinary Gendered Talks organized in March 2023 in the framework of the activities undertaken by the Gender Equality Plan of the University of Bucharest <https://gep.unibuc.ro> in collaboration with the UB Institute of Research ICUB where a Gender Studies Platform has been initiated <https://icub.unibuc.ro> the gender studies platform The aim of the conference was to offer an academic space for presenting engaging thought provocative and cutting edge interdisciplinary research in Gender Studies More than 30 participants researchers academics students from inside and outside Romania attended the hybrid event and presented a wide range of gender sensitive interdisciplinary research outcomes and or future plans **Extension of MFN Status to Romania, Hungary, and the People's Republic of China** United States. Congress. House. Committee on Ways and Means. Subcommittee on Trade, 1982 **Red Army in Romania** Constantin Hlihor, 2022-07-01 The Red Army in Romania is the first comprehensive study of the Soviet occupation of Romanian territory in 1940 1941 and its occupation of the country at the end of World War II which lasted until Soviet troops withdrew from the country in 1958 Based on previously unavailable archival sources it sheds light on the occupation policies of the Red Army and Soviet policy in Eastern Europe generally at the end of World War II The authors both well known historians discuss the geopolitical and historical conditions that allowed the Red Army to occupy Romania They analyze the consequences of the occupation on the country particularly on political life as it led to the establishment of a Communist regime in Romania The Red Army in Romania is a valuable book for

students and researchers alike Constantin Hlihor is a professor of history at the University of Bucharest and a researcher at the Center for Euro Atlantic Studies and at the Academy for Military Studies in Bucharest Ioan Scurtu is a professor of history at the University of Bucharest and former director of the Romanian National Archives

Basic Data on the Economy of Romania Michael H. Goldman, 1968 History of Romanian Technology and Industry Dorel

Banabic, 2023-09-21 This volume showcases the valuable achievements of the Romanian technology and industry worldwide It started from the premise that the history of Romanian technique is scarcely known outside the borders of Romania The main Romanian contributions to the world's technological heritage are missing except for a few names in the field of aviation from the great encyclopedias and dictionaries published worldwide This is due among other reasons to the insufficient promotion in widely spoken languages of the history of Romanian technology The multidisciplinary approach of the volumes means that the field of technology had to be split into several branches The present volume includes the following industries electrical engineering energy technology biomedicine maritime and rail transport automotive industry aviation The history of engineering societies of engineering education of intellectual property and of inventions as well as a synopsis of the personalities of Romanian engineering have been tackled in separate chapters For each field are engaged the collaboration of authors who have already published a history of their field Certain chapters were drafted with the aid of specialists who have played the part of policy makers in the elaboration of development strategies for Romania and who are familiar not only with the facts and the history of their field but also with the philosophy behind its development **Romania**, 1973
