Sauer, 2024-09-17 What makes us moral beings How do we decide what is good and what is evil In the vein of Sapiens comes a grand history of our universal moral values at the moment of their greatest crisis How did we learn to distinguish good from evil Have we always been capable of doing so And will we still be in the world to come In this breathtaking book ethics expert Hanno Sauer offers a great universal history of morality in the era of its darkest crisis He finds that morality existed long before there was talk of God religion or philosophy Its history is first of all the fruit of a process of natural selection going back to the dawn of humanity in the forests of East Africa which five million years ago thinned out owing to climate change Among the early humans that came down from the trees there were also our ancestors who adapted to open spaces by organizing themselves into large groups Under the pressure of environmental factors morality emerges as the foundation for cooperation a quality that is as precarious as it is essential to the survival of the species Moving between paleontology and genetics psychology and cognitive science philosophy and evolutionism Sauer traces a genealogy of morality and along the journey marks the main moral transformations in the history of humanity In the end he concludes that millions of years of stratifications has led to the moral crisis of our present and the only way to build a future together is to retrace our history

Miyazaki's Animism Abroad Eriko Ogihara-Schuck, 2014-10-21 After winning an Oscar for Spirited Away the Japanese director Hayao Miyazaki's animated films were dubbed into many languages Some of the films are saturated with religious themes distinctive to Japanese culture How were these themes or what Miyazaki describes as animism received abroad especially considering that they are challenging to translate This book examines how American and German audiences grounded on Judeo Christian traditions responded to the animism in Miyazaki's Nausicaa of the Valley of the Wind 1984 My Neighbor Totoro 1988 Princess Mononoke 1997 Spirited Away 2001 and Ponyo on the Cliff by the Sea 2008 By a close reading of adaptations and film reviews and a study of transitions in their verbal and visual approaches to animism this book demonstrates that the American and German receptions transcended the conventional view of an antagonistic relationship between animism and Christianity With the ability to change their shapes into forms easily accessible to other cultural arenas

the anime films make a significant contribution to inter religious dialogue in the age of secularization Zen and Western Thought Masao Abe,1989-02-01 This collection of Abe s essays is a welcome addition to philosophy and comparative philosophy The Quest for God and the Good Diana Lobel,2011 Lobel crosses Eastern and Western philosophical and religious traditions to discover a beauty and purpose at the heart of reality that makes life worth living This title does not treat philosophy as an abstract theoretical discipline but as living experience **Good Vs. State of Nature Or Eden? Helen Thornton,2005 State of Nature or Eden Thomas Hobbes and his Contemporaries on the Natural Condition of Human Beings aims to explain how Hobbes s state of nature was understood by a contemporary readership whose most important reference point for such a condition was the original condition of human beings at the creation in other words in Eden The book uses ideas about how readers brought their own reading of other texts to any reading that reading is affected by the context in which the reader reads and that the Bible was the model for all reading in the early modern period It combines these ideas with the primary evidence of the contemporary critical reaction to Hobbes to reconstruct how Hobbes s state of nature was read by his contemporaries The book argues that what determined how Hobbes s seventeenth century readers responded to his description of the state of nature were their views on the effects of the Fall Hobbes s contemporary critics the majority of whom were Aristotelians and Arminians thought that the Fall had corrupted human nature although not to the extent implied by Hobbes s description Further they wanted to look at human beings as they should have been or ought to be Hobbes on the other hand wanted to look at human beings as they were and in doing so was closer to Augustinian Lutheran and Reformed interpretations which argued that nature had been inverted by the Fall For those of Hobbes s contemporaries who shared these theological assumptions there were important parallels to be seen between Hobbes s account and that of scripture although on some points his description could have been seen as a subversion of scripture The book also demonstrates that Hobbes was working within the Protestant tradition as well as showing how he used different aspects of this tradition Helen Thornton is an Independent Scholar She completed her PhD at the University of Hull **The Word, the Heart, and Prosperity** Rool Noiman,2002-12 The Cyclopædia, Or, Universal Dictionary of Arts, Sciences, and Literature Abraham Rees,1819 **Formalism in Ethics and Non-formal Ethics of Values** Max Scheler,1973 A lengthy critique of Kant s apriorism precedes discussions on the ethical principles of eudaemonism utilitarianism pragmatism and positivism **Pancasila and the Search for Identity and Modernity in Indonesian Society** Darmaputera,2023-07-31 **Basic Writings of St. Thomas Aquinas, Volume 2** Thomas Aquinas,Anton C.
