Reading as a Perceptual Process A. Kennedy, D. Heller, J. Pynte, Ralph Radach, 2000-08-04 This book is divided into five sections dealing with various fundamental issues in current research attention information processing and eye movement control the role of phonology in reading syntax and discourse processing and computational models and simulations Control and measurement of eye movements form a prominent theme in the book A full understanding of the where and when of eye movement control is a prerequisite of any complete theory of reading since it is precisely at this point that perceptual and cognitive processes interact Amongst the hot topics included are the relation between parafoveal and foveal visual processing of linguistic information the role of phonology in fluent reading and the emergence of statistical tuning approaches to sentence parsing Also discussed in the book are three attempts to develop quantitative models of reading which represent a significant departure in theory building and a quantum step in the maturation of reading research Much of

the work reported in the book was first presented at the 5th European Workshop on Language Comprehension organised in April 1998 which was held at the CNRS Luminy Campus near Marseilles All contributions summarise the state of the art in the relevant areas of reading research *Classical Reception and Children's Literature* Owen Hodkinson, Helen Lovatt, 2018-01-30 Reception studies have transformed the classics Many more literary and cultural texts are now regarded as valid for classical study And within this process of widening children s literature has in its turn emerged as being increasingly important Books written for children now comprise one of the largest and most prominent bodies of texts to engage with the classical world with an audience that constantly changes as it grows up This innovative volume wrestles with that very characteristic of change which is so fundamental to children s literature showing how significant the classics as well as classically inspired fiction and verse have been in tackling the adolescent challenges posed by metamorphosis Chapters address such themes as the use made by C S Lewis in *The Horse and his Boy* of Apuleius *The Golden Ass* how Ovidian myth frames the Narnia stories classical nonsense in Edward Lear *Pan* as a powerful symbol of change in children s literature for instance in *The Wind in the Willows* the transformative power of the Orpheus myth and how works for children have handled the teaching of the classics Sales Parke-Bernet Galleries, 1964 **Wartime Entertainment** Anton Rippon, Nicola Rippon, 2025-03-31 It might have ended 80 years ago but we still have a warm nostalgic relationship with the Second World War due in no small part to the love we have for the entertainment from those turbulent times Singers like Vera Lynn the Forces Sweetheart Gracie Fields Anne Shelton and the Andrews Sisters bandleader Glenn Miller whose fate is still a mystery films like *Gone With The Wind* *Casablanca* *Mrs Miniver* *In Which We Serve* *Goodbye Mr Chips* and morale boosting radio programs like *ITMA Music While You Work* and *Hi Gang* all helped Britain to stay calm and carry on as it sheltered from the bombs worked long hours in munitions factories and prayed that its menfolk fighting on land sea and in the air to bring about victory would one day return home safely *Wartime Entertainment How Britain Kept Smiling Through the Second World War* relives the wartime years looking at the songs and the singers at the role that the BBC Auntie played not only in entertaining the nation but also in keeping it informed at how West End theater survived the Blitz and at the bands that played both the big dance venues and the village halls to raise spirits and for a few hours at least lighten the mood of those dark and dangerous days The book considers the work of the Crown Film Unit that made short information and documentary films as well as longer drama documentaries and even a few straight drama productions for the public in Britain and abroad and at ENSA the Entertainments National Service Association that provided entertainment for British armed forces personnel both at home and abroad **Visions of Yesterday** Jeffrey Richards, 2014-01-21 Film is an important source of social history as well as having been a popular art form from the early twentieth century This study shows how a society consciously or unconsciously is mirrored in its cinema It considers the role of the cinema in dramatizing popular beliefs and myths and takes three case studies American populism British imperialism German Nazism to explain how a

nation's pressures, tensions, and hopes come through in its films. Examining the American cinema is accomplished by analysing the careers of three great directors: John Ford, Frank Capra, and Leo McCarey, while the British and German cinemas are studied by theme. The analysis of the British Empire as seen in film broke exciting new ground with a pioneering account of the cinema of Empire when it was first published in 1973. With full filmographies and a carefully selected bibliography, it is an outstanding work of reference, and its lively approach makes it a delight to read. Reviews of the original edition: A work of considerable force and considerable wit. Clive James, *Observer*, a work that is original, mentally stimulating, and most pleasurable to read. Focus on Film.

Latin in Modern Fiction Henryk Hoffmann, 2021-07-06 The goal of this book is to prove that Latin is not a dead language by demonstrating how prevalent and strong it still is in modern Western culture. In order to do so, the author, an English philologist with a long experience as a Latin educator, catalogues, explains, and interprets Latin quotations and references in a multitude of twentieth and twenty-first century literary works by primarily mainstream authors from Aldous Huxley to Saul Bellow to John Irving, crime mystery writers from Raymond Chandler to Elizabeth George to Dennis Lehane, and frontier western novelists from Emerson Hough to Larry McMurtry. The three areas of fiction constituting the main scope of the book indicate the author's major interest and preference, as well as the subject matter of his extensive research, both prior and current; the former related to his already published books. The writers offering the most impressive contributions to the thesis are featured in the three parts of the main body; those with lesser input are listed in the Appendix. The prospective readers of the book include all Latin students and educators at the secondary and college levels worldwide.

The chapters are drawn from a wide range of disciplines, including education, literary studies, cultural studies, music, and clinical studies. Each chapter considers a particular methodological issue or approach, illustrating how it was addressed in the course of the research. Tuitions and Intuitions William Rothman, 2019-11-01. Makes the case that philosophy has an essential role to play in the serious study of film. William Rothman has long been considered one of the seminal figures in the field of film philosophy. From his landmark book *Hitchcock: The Murderous Gaze* now in its second edition to the essays collected here in *Tuitions and Intuitions*, Rothman has been guided by two intuitions: first, that his kind of film criticism is philosophy, and second, that such a marriage of criticism and philosophy has an essential part to play in the serious study of film. In this book, he aspires, borrowing a formulation from Emerson, to pay the tuition for these intuitions. Thoughtful, philosophically sophisticated, and provocative, the essays included here address a wide range of films, including classical Hollywood movies, the work of auteur directors like Alfred Hitchcock, George Cukor, Yasujiro Ozu, and Woody Allen; performances by John Barrymore and James Stewart; unconventional works by Jean Genet, Chantal Akerman, Terrence Malick, and the Dardenne brothers; the television series *Justified*; and documentaries by Jean Rouch, Ross McElwee, and Robert Gardner. All the essays address questions of philosophical significance, and taken together, they manifest Rothman's lifelong commitment when writing about a film to respect the film's own ideas, to remain open to the film's ways of expressing its ideas, and to let the film help teach him how to view it, how to think about it, and how to discover what he has at heart to say about it. *Tuitions and Intuitions* is simply indispensable to anyone interested in philosophy and in film as philosophy. This book, as a whole, expresses and exemplifies moral perfectionism through the exploration of what our self becomes with this experience of cinema. Sandra Laugier, University of Paris, Sorbonne.

Bringing Rothman's work together highlights patterns and consistent concerns that may not otherwise be obvious to readers. The book will be invaluable to current and future Rothman scholars. Kyle Stevens, author of *Mike Nichols: Sex, Language, and the Reinvention of Psychological Realism*.
