Gorbachev And The Future Of The Soviet Military Institution Adelphi Papers:

The Emergence of Russian Foreign Policy Leon Rabinovich Aron, Kenneth Martin Jensen, 1994 The emergence of a new Russia a post communist European state with a vast store of nuclear arms raises many complex questions What kind of foreign and defense policies will Russia pursue into the 21st century What will be the impact of the loss of the former empire And what are the implications for western policymakers This volume attempts to answer those questions by examining Russia's relations with the Near Abroad the newly independent states on its borders the Commonwealth of Independent States CIS and its Pacific neighbors as well as its peacekeeping role in the former Soviet states In addition the book explores the historic patterns of Russian foreign policy issues of internationalism accommodation Soviet Russia the Soviet legacy institutional mechanisms for policymaking and the effects of domestic policy *The Emergence of Russian Foreign Policy* concludes with a discussion of western perceptions of Russia's evolving national security doctrine and the future of Russian American strategic relations

The Treaty on Conventional Armed Forces in Europe Mark Wilcox, 2024-03-04 This work examines the CFE Treaty as a factor in Russia's foreign and security policy Moscow showed amazing persistence in their relationship with the cornerstone of European security Their approach to the treaty was a genuine attempt to shape the security environment in Europe and the former USSR The treaty also enabled the dismantling of large conventional forces as they returned from Eastern Europe and transitioned into the armies of the newly independent states of the former USSR The CFE Treaty though proved ineffective at constraining the enlargement of NATO Simultaneously Moscow's foreign and security policy evolved from one that focused on the domestic development of the country to that of a more confident state reasserting itself as a great power Drawing extensively on primary sources and analyses by Russian authors this book employs two historical narratives case studies and a conceptual framework to show that while Moscow remained engaged with the CFE Treaty undesired effects on Russia's national interests gradually accrued at the expense of desired ones leading Vladimir Putin to withdraw Russia from the treaty as an act of decoupling from the collective West This book is relevant to scholars and policymakers who want to understand Russia's approach to arms control as an element of military security

Openness and Foreign Policy Reform in Communist States Gerald Segal, 2005-06-28 This book looks at the way in which foreign policy has changed in communist states It considers especially the relationship between domestic reform and foreign policy reform at times when formerly closed societies are becoming more open to the outside world It focuses on three European and three Asian states analysing their different paths to reform and looking in depth at the question of why some communist regimes collapse and why those in Asia have proved more durable than those in Europe

The Logic of Accidental Nuclear War Bruce G. Blair, 2011-04-01 The end of the cold war and the disintegration of the Soviet Union has not eliminated the threat posed to international security by nuclear weapons The Soviet breakup actually created a new set of dangers the accidental or unauthorized use of nuclear weapons and the illicit

transfer of nuclear warheads technology or expertise to the Third World The Logic of Accidental Nuclear War analyzes the danger of nuclear inadvertence lurking in the command and control systems of the nuclear superpowers Foreign policy expert Bruce G Blair identifies the cold war roots of the contemporary risks and outlines a comprehensive policy agenda to strengthen control over nuclear forces Based on discussions with numerous U S and Russian experts including Russian launch officers who served in the strategic rocket forces and ballistic missile submarines this book reveals a wealth of new facts about the hidden history of U S and Soviet nuclear crisis alerts and exercises It is a richly detailed rigorous and authoritative account of nuclear operations and overturns much conventional wisdom on the subject Striving for Military Stability in Europe Jane M. O. Sharp, 2010-04-05 First Published in 2004 This new book traces the changing relationship between Russia and NATO through the prism of conventional arms control and focuses on the negotiation implementation and adaptation of the Conventional Armed Forces in Europe CFE Treaty It shows that arms control agreements reflect rather than affect relations between parties The CFE Treaty codified parity between NATO and the Soviet led Warsaw Treaty Organization WTO in November 1990 reflecting the status quo at the end of the cold war The benefits were short lived for Russia however Although still widely viewed in the West as the cornerstone of security and stability in post cold war Europe from the Russian perspective the treaty was soon overtaken by events With the collapse of the WTO and the Soviet Union in 1991 it became impossible to talk of a military balance between east and west in Europe especially as all the former WTO states opted for membership in NATO This study details how the other state parties worked hard to adjust and adapt the treaty to meet Russian concerns about its new weakness relative to NATO and the issues that complicated Russian acceptance of CFE limits This book will be of great interest to all students of Russia NATO European politics international relations and strategic studies in general **Non-Offensive Defence for the Twenty-First Century** Bjorn Moller, 2019-03-11 This anthology constitutes an attempt to take stock of the debate on non offensive defence after the Cold War providing information on a research project that was initiated in 1985 at the Centre for Peace and Conflict Research in Copenhagen The Destruction of the Soviet Union D. Lockwood, 2015-12-22 Is there a link between the collapse of the Soviet Union the radical reforms in China and Vietnam and the current crisis in East Asia David Lockwood argues that the common factor in each is the crisis of state controlled economies besieged by the developing forces of globalization This book examines the collapse of the Soviet Union not as the end of history or the beginning of a new world order but as an illustration of processes that are taking place the world over The author concludes that it was globalization that brought down the communist system Globalization continues to threaten state controlled economies from the remaining socialist state to the NICs of East Asia **Adelphi Papers** , 1991 **The Defense Policies of Nations** Douglas J. Murray, Paul R. Viotti, 1994 Now in its third edition The Defense Policies of Nations has been thoroughly updated to take into account the dramatic developments of recent years the dissolution of the Soviet Union the resurgence of East Asian powers the

emergence of newly independent nations in Eastern Europe the continuing instability of the Middle East and the growing importance of third world nations in global security matters For those dealing with national defense issues on a daily basis or even for those interested in the subject because of its current relevance The Defense Policy of Nations is must reading Gen Theodore J Conway Military Review American Academy of Political and Social Science IBSS: Political Science: 1991 British Library of Political and Economic Science,1993 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences

Concepts of Non-Provocative Defence G. Wiseman,2001-12-18 This book examines the viability of non provocative defence the controversial idea that defensive military policies and practices reduce the risk of wars and provide a viable basis for defending a society should war break out Drawing on case studies from Europe the 1991 Persian Gulf War and Asia Pacific the author concludes that non provocative defence concepts remain relevant and that they can help in deterring conducting and settling wars

The Collapse of Soviet Military Power Christoph Bluth,1995 This is a study of Soviet military doctrine and capabilities and their relation to Soviet foreign policy objectives and East West relations during the Gorbachev period The role of military power in Gorbachev s foreign policy and the dismantling of the military confrontation in Europe is examined

No Miracles Michael R. Fenzel,2017-12-05 The Soviet experience in Afghanistan provides a compelling perspective on the far reaching hazards of military intervention In 1985 Mikhail Gorbachev decided that a withdrawal from Afghanistan should occur as soon as possible The Soviet Union s senior leadership had become aware that their strategy was unraveling their operational and tactical methods were not working and the sacrifices they were demanding from the Soviet people and military were unlikely to produce the forecasted results Despite this state of affairs operations in Afghanistan persisted and four more years passed before the Soviets finally withdrew their military forces In *No Miracles* Michael Fenzel explains why and how that happened as viewed from the center of the Soviet state From that perspective three sources of failure stand out poor civil military relations repeated and rapid turnover of Soviet leadership and the perception that Soviet global prestige and influence were inexorably tied to the success of the Afghan mission Fenzel enumerates the series of misperceptions and misjudgments that led to the Soviet invasion of Afghanistan tracing the hazards of their military intervention and occupation Ultimately he offers a cautionary tale to nation states and policymakers considering military intervention and the use of force

The Future of War Lawrence Freedman,2017-10-10 An award winning military historian professor and political adviser delivers the definitive story of warfare in all its guises and applications showing what has driven and continues to drive this uniquely human form of political violence Questions about the future of war are a regular feature of political debate strategic analysis and popular fiction Where should we look for new dangers What cunning

plans might an aggressor have in mind What are the best forms of defense How might peace be preserved or conflict resolved From the French rout at Sedan in 1870 to the relentless contemporary insurgencies in Iraq and Afghanistan Lawrence Freedman a world renowned military thinker reveals how most claims from the military futurists are wrong But they remain influential nonetheless Freedman shows how those who have imagined future war have often had an idealized notion of it as confined brief and decisive and have regularly taken insufficient account of the possibility of long wars hence the stubborn persistence of the idea of a knockout blow whether through a dashing land offensive nuclear first strike or cyberattack He also notes the lack of attention paid to civil wars until the West began to intervene in them during the 1990s and how the boundaries between peace and war between the military the civilian and the criminal are becoming increasingly blurred Freedman s account of a century and a half of warfare and the often misconceived thinking that precedes war is a challenge to hawks and doves alike and puts current strategic thinking into a bracing historical perspective A New Strategy and Fewer Forces James A. Winnefeld, 1992 This report considers how the United States should reposture its forces adjust its policies and change its military operations in the Asia Pacific region all in the context of reduced resources and increased burden sharing by allies and security partners It assesses six alternative U S regional force postures that might develop over the next 15 years Each posture is examined for the regional responses it might evoke its performance in a variety of future contingencies and its comparative cost The report identifies five factors that will shape Asia s future and America s role in it 1 the implosion of Soviet power and its political and security consequences 2 the development of Japan as a global economic and technological power 3 the primacy of economics in both domestic and international contexts 4 the unsettled political and economic futures of the Asian communist regimes and 5 the reconfiguration of America s regional alliances in the context of rapid domestic political change The authors list several policy and program initiatives designed to mitigate the potential negative effects of U S force posture reductions *The Conventional Armed Forces in Europe Treaty* Stuart Croft, 1994 This book examines the CFE Treaty both in terms of the Treaty commitments and in terms of the debate over the Treaty and its ratification in order to deepen understanding of the different national attitudes to security at the end of the Cold War It is a piece of contemporary history as well as a book which sets out the legal obligations over the size of the armed forces of most of the countries of Europe in perpetuity It includes an analysis not only of the Treaty of November 1990 but also the revised version of 1992 which set out the limits for all the ex Soviet states and the CFE 1A agreement in which states declared maximum levels for their military personnel BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved
