Gottfried Benn And His Critics Major Interpretations 19121992:

The Poetry of Gottfried Benn Martin Travers,2007 This book is the first comprehensive study of Gottfried Benn s poetry to appear in English It covers the entirety of Benn s verse from his early Morgue cycle 1912 and Expressionist poems through to the anthropological poetry of his middle period to the postmodern Phase II work after the Second World War Against the background of the poet s theoretical writings this study drawing upon the classic texts of Benn scholarship analyzes in detail the major themes of his verse and its distinctive idiom In particular this work focuses on Gottfried Benn s extended process of rhetorical self fashioning his use of classical iconography color motifs and chiffres his often confusing historical semantics the seemingly self constituting absolute poem and the colloquial idiom of his late verse The book also engages with the multiplicity of voices in Benn s work and their varied textual forms the hermeneutically variable positions of speech that they articulate and the often contradictory notion of selfhood to which they give rise The Grotesque in the Works of Bruno Jasiński Agata Krzychylkiewicz,2006 This book is the first critical attempt made in any language to re examine the entire oeuvre of Bruno Jasie ski 1901 1938 It takes into account the writer s lifelong concerns but places them in the context of the universal value of his writing generated by his modernist passions and his fascination with the grotesque an artistic device that was consonant with his need to portray life in all its complexities The author relies on the grotesque as an element that unifies Jasie ski s futuristic poetry with his prose Especially important in this regard is the close reading of Jasie ski s satiric grotesques written in the Soviet Union The author does not avoid the intricacies and difficult questions of Jasie ski s ideological commitment but focuses mainly on the consequences that the highly ambivalent and ambiguous nature of the grotesque has on the interpretation of his work Encyclopedia of the Essay Tracy Chevalier,2012-10-12 This groundbreaking new source of international scope defines the essay as nonfictional prose texts of between one and 50 pages in length The more than 500 entries by 275 contributors include entries on nationalities various categories of essays such as generic such as sermons aphorisms individual major works notable writers and periodicals that created a market for essays and particularly famous or significant essays The preface details the historical development of the essay and the alphabetically arranged entries usually include biographical sketch nationality era selected writings list additional readings and anthologies **The Facts on File Companion to World Poetry** R. Victoria Arana,2008 The Facts On File Companion to World Poetry 1900 to the Present is a comprehensive introduction to 20th and 21st century world poets and their most famous most distinctive and most influential poems **Gottfried Benn and His Critics** Augustinus Petrus Dierick,1992-01-01 A study of the scholarly criticism of the works of Gottfried Benn The Modern Restoration Stephen Parker,Peter Davies,Matthew Philpotts,2012-04-17 This book seeks to move twentieth century German literary history away from its stubbornly persistent reliance on the political turning points of 1933 and 1945 In the first part of the book the authors analyze a synchronic corpus of literary journals identifying a restorative aesthetic mood in the years 1930 1960

which persists across political date boundaries In the second part the careers of five writers are considered diachronically against this prevailing restorative climate Gottfried Benn Johannes R Becher Bertolt Brecht G nter Eich and Peter Huchel Combining these two approaches the authors show that a fresh perspective that challenges established literary historical periodisations can shed light on the common cultural and aesthetic ground shared by writers editors and critics across the ideological divides of the era

Artists Under Hitler Jonathan Petropoulos,2014-11-28 What are we to make of those cultural figures many with significant international reputations who tried to find accommodation with the Nazi regime Jonathan Petropoulos asks in this exploration of some of the most acute moral questions of the Third Reich In his nuanced analysis of prominent German artists architects composers film directors painters and writers who rejected exile choosing instead to stay during Germany s darkest period Petropoulos shows how individuals variously dealt with the regime s public opposition to modern art His findings explode the myth that all modern artists were anti Nazi and all Nazis anti modernist Artists Under Hitler closely examines cases of artists who failed in their attempts to find accommodation with the Nazi regime Walter Gropius Paul Hindemith Gottfried Benn Ernst Barlach Emil Nolde as well as others whose desire for official acceptance was realized Richard Strauss Gustaf Gr ndgens Leni Riefenstahl Arno Breker Albert Speer Collectively these ten figures illuminate the complex cultural history of Nazi Germany while individually they provide haunting portraits of people facing excruciating choices and grave moral questions

Encyclopedia of German Literature Matthias Konzett,2015-05-11 Designed to provide English readers of German literature the opportunity to familiarize themselves with both the established canon and newly emerging literatures that reflect the concerns of women and ethnic minorities the Encyclopedia of German Literature includes more than 500 entries on writers individual work and topics essential to an understanding of this rich literary tradition Drawing on the expertise of an international group of experts the essays in the encyclopedia reflect developments of the latest scholarship in German literature culture and history and society In addition to the essays author entries include biographies and works lists and works entries provide information about first editions selected critical editions and English language translations All entries conclude with a list of further readings

Critics of Modernity Martin Travers,2001 In cultural terms that ethos was every bit as powerful as the prevailing discourse of Modernism bringing within its sway figures as diverse as Hermann Lons Hans Grimm Ernst Junger Stefan George Arnolt Bronnen Ernst von Salomon and Gottfried Benn Disparate as they were in their aesthetic aims and priorities these writers shared a thorough rejection of the values and institutions of the modern world whose perceived evils they sought to remove through that most paradoxical of all political acts a conservative revolution

Exotic Spaces in German Modernism Jennifer Anna Gosetti-Ferencei,2011-10-20 Jennifer Anna Gosetti Ferencei demonstrates that the exotic as reflected in major works of German literature and in the philosophy and art that inspires it provokes central questions about the modern self and the spaces it inhabits Exotic spaces in the writings of such authors as Thomas Mann Franz Kafka Stefan Zweig Robert

Musil Hugo von Hofmannsthal Gottfried Benn and Bertold Brecht along with the thought of Nietzsche Freud Levi Strauss and Simmel and the art of German Expressionism are shown to present alternatives to the landscape and experience of modernity In an examination of the concept of the exotic and of spatial experience in their cultural subjective and philosophical contingencies Gosetti Ferencei shows that exotic spaces may contest and reconfigure the relationship between the familiar and the foreign the self and the other Exotic spaces may serve not only to affirm the subject in a symbolic conquering of territory as emphasized in post colonial interpretations or project the fantasy of escapism to a lost paradise as utopian readings suggest but condition moral aesthetic or imaginative transformation Such transformation while risking disaster or dissolution of the self as well as endangerment of the other may promote new possibilities of perceiving or being and reconfigure the boundaries of a familiar world As exotic spaces are conceived as mystical liberating erotic infectious frightening or mysterious several possibilities for transformation emerge in their exposure re enchantment through epiphany the collapse of the rational self liberation of the imagination from the confines of the familiar world and aesthetic transformation revealing the paradoxically primitive nature of modern experience In strikingly original readings of canonical authors and compelling rediscoveries of forgotten ones this study establishes that exotic experience can evidence the fragility of the European or Germanic self as depicted in modernist literature revealing the usually unconsidered boundaries of the subject's own familiar world

Classe, 2000 The Potentiation of Meaning Through Translative Reading Ian Morgan, 2010-01-27 Since its inception the theory of literary translation has been plagued by a disregard of the comprehensive aspect of the translation process This development throughout the history of translation has led to considerable disagreements and colliding notions regarding the purposes of theory the parameters of translation criticism and the question of untranslatability In this book the concept of a translative reading the engagement with a poetic text with the purpose of translation is explored and its structure revealed In order to demonstrate the practical value of this theory three poems by German expressionist poet Gottfried Benn 1886 1956 are examined on the basis of such a translative reading
