Doyle, Matthew R. Bennett, 2013-03-14 Terrain has a profound effect upon the strategy and Shires tactics of any military engagement and has consequently played an important role in determining history. In addition the landscapes of battle and the geology which underlies them has helped shape the cultural iconography of battle certainly within the 20th century In the last few years this has become a fertile topic of scientific and historical exploration and has given rise to a number of conferences and books The current volume stems from the international Terrain in Military History conference held in association with the Imperial War Museum London and the Royal Engineers Museum Chatham at the University of Greenwich in January 2000 This conference brought together historians geologists military enthusiasts and terrain analysts from military academic and amateur backgrounds with the aim of exploring the application of modem tools of

landscape visualisation to understanding historical battlefields This theme was the subject of a Leverhulme Trust grant F 345 E awarded to the University of Greenwich and administered by us in 1998 which aimed to use the tools of modem landscape visualisation in understanding the influence of terrain in the First World War This volume forms part of the output from this grant and is part of our wider exploration of the role of terrain in military history Many individuals contributed to the organisation of the original conference and to the production of this volume Fortress Britain Ian Hernon, 2013-08-01 As Stuart Laycock's book All the Countries We ve Ever Invaded and the Few We Never got Round to shows the British have not been backward in coming forward when it comes to aggressive forays abroad But it hasn t all been one way In 1193 for example the Danes teamed up serial offenders the French for a full scale invasion The French Prince Louis the Lion came close to success exactly 150 years after the Battle of Hastings The 100 Years War saw multiple raids on British towns and ports by the Spanish and French Following the Armada there was the bloodless invasion of 1688 Bonnie Prince Charlie s march south the remarkable American John Paul Jones attack on Whitehaven during the American War of Independence the German occupation of the Channel Islands and the great what if of British perhaps world history the threat of Operation Sealion Ian Hernon brings his journalistic flair to bear in this dramatic narrative of the survival of an island race over 900 years sometimes surprisingly against the odds Whilst such a history one leaving out the boring bits is bound to entertain it also cannot fail to inform where were shots last exchanged with an enemy on the mainland At Graveney Marsh in Kent
