Guide To The Monuments:

A Guide to National Monuments and Historic Sites Jill MacNeice, 1990 Descriptions of America's national monuments landmarks and settings Robert Smithson Ann Reynolds, 2004-10-01 An examination of the interplay between cultural context and artistic practice in the work of Robert Smithson Robert Smithson 1938 1973 produced his best known work during the 1960s and early 1970s a period in which the boundaries of the art world and the objectives of art making were questioned perhaps more consistently and thoroughly than any time before or since In Robert Smithson Ann Reynolds elucidates the complexity of Smithson's work and thought by placing them in their historical context a context greatly enhanced by the vast archival materials that Smithson's widow Nancy Holt donated to the Archives of American Art in 1987 The archive provides Reynolds with the remnants of Smithson's working life magazines postcards from other artists notebooks and perhaps most important his library from which she reconstructs the physical and conceptual world that Smithson inhabited Reynolds explores the relation of Smithson's art making thinking about art making writing and interaction with other artists to the articulated ideology and discreet assumptions that determined the parameters of artistic practice of the time A central focus of Reynolds's analysis is Smithson's fascination with the blind spots at the center of established ways of seeing and thinking about culture For Smithson New Jersey was such a blind spot and he returned there again and again alone and with fellow artists to make art that through its location alone undermined assumptions about what and more important where art should be For those who guarded the integrity of the established art world New Jersey was elsewhere but for Smithson elsewheres were the defining if often forgotten locations on the map of contemporary culture

Their Silent Vigil Robert J. Nixon, 2009-10 Visitors flock to the battlefield to witness in person the hallowed ground of the Gettysburg National Military Park which contains perhaps the largest outdoor collection of stone and bronze sculptures in the world It is certainly the most memorialized battlefield in the United States And while they may be drawn by the history of Gettysburg many are compelled by the monuments markers and tablets that dot the landscape Many of monuments tell stories and provide details of the battle that few have ever read In some cases the designs are elaborate In other cases they are simple But in all cases they serve as permanent memorials to the brave soldiers of the North and South who fought with all of their hearts and souls and died for what they believed This book opens the door to the monuments of the Gettysburg National Military Park which for so long have held their silent vigil over the ground that cost so many so much Their Silent Vigil Volume One contains drawings of every regimental monument clearly displaying every inscription and feature with painstaking attention to detail Robert Nixon has created and organized this amazing collection of depictions Applying his engineering background and creativity he has fashioned an informative and enduring tribute to the sacrifices made with courage honor and loyalty This provides that tribute in a clear easy to read format that can be enjoyed in the comfort of your home or while sitting on the boulders of Devil's Den *National Military Park, National Park, Battlefield Site, and National Monument Regulations* United States. Civil War Monuments and the Militarization of America Thomas J. Brown, 2019-10-10 This sweeping new assessment of Civil War monuments unveiled in the United States between the 1860s and 1930s argues that they were pivotal to a national embrace of military values Americans wariness of standing armies limited construction of war memorials in the early republic Thomas J Brown explains and continued to influence commemoration after the Civil War As large cities and small towns across the North and South installed an astonishing range of statues memorial halls and other sculptural and architectural

tributes to Civil War heroes communities debated the relationship of military service to civilian life through fund raising campaigns artistic designs oratory and ceremonial practices Brown shows that distrust of standing armies gave way to broader enthusiasm for soldiers in the Gilded Age Some important projects challenged the trend but many Civil War monuments proposed new norms of discipline and vigor that lifted veterans to a favored political status and modeled racial and class hierarchies A half century of Civil War commemoration reshaped remembrance of the American Revolution and guided American responses to World War I Brown provides the most comprehensive overview of the American war memorial as a cultural form and reframes the national debate over Civil War monuments that remain potent presences on the civic landscape

Colonial Violence and Monuments in Global History Cynthia C. Prescott, Janne Lahti, 2023-08-29 This book tackles the historical relationship between colonial violence and monuments in Africa Europe the Indian subcontinent North America and Australia In this volume the authors ask similar questions about monuments in each location and answer them following a parallel structure that encourages comparison highlighting common themes The chapters track the contested histories of monuments scrutinizing their narrative power and examining the violent events behind them It is both about the history of monuments and the histories the monuments are meant to commemorate It is interested in this nuanced relationship between violence monuments memory and colonial legacies the ways different facets of colonial violence conquest resistance massacres genocides internments and injustices have been commemorated or haven't been how they live in the present and how pertinent they are in the present to different peoples Legacies of colonial violence and continued reinterpretations of the past and its meanings remain very much ongoing They are still very much unsettled questions in large parts of the world Colonial Violence and Monuments in Global History will be essential reading for students scholars and researchers of political science history sociology and colonial studies The book was originally published as a special issue of the Journal of Genocide Research

A Guide to Establishing Monuments and Memorials, 2008 Southwestern Monuments: Monthly Report United States. National Park Service, 1937

Fallen Monuments and Contested Memorials Juilee Decker, 2023-07-05 Fallen Monuments and Contested Memorials examines how the modification destruction or absence of monuments and memorials can be viewed as performative acts that challenge prescribed embodied narratives in the public realm Bringing together international multidisciplinary approaches the chapters in this volume interrogate the ways in which memorial constructions disclose implicitly and explicitly the proxy battle for public memory and identity particularly since 2015 Acknowledging the ways in which the past which is given agency through monuments and memorials intrudes into daily life this volume offers perspectives from researchers that answer questions about the roles of monuments and memorials as persistent yet mutable works whose meanings are not fixed but are rather subject to processes of continual re interpretation By using monuments and memorials as lenses through which to view race memory and the legacies of war power and subjugation this volume demonstrates how these works and their visible representations of entitlement possession control

and authority can offer the opportunity to pose and answer questions about whose memory matters and what our symbols say about who we are and what we value Fallen Monuments and Contested Memorials is essential reading for scholars and students studying cultural heritage history art history and public history It will be particularly useful to those with an interest in public monuments and memorials colonial and post colonial history memory studies and nationalism race and ethnic studies
