Integrated Life-Cycle and Risk Assessment for Industrial Processes Francesc Castells, 2003-11-24 This book covers the use of life cycle assessment risk assessment and a combined framework of the two in the estimation of environmental damage providing explanations of methods and descriptions in the environmental analysis of industrial processes The book opens by examining environmental strategies then places life cycle and risk assessment

Integrated Life-Cycle and Risk Assessment for Industrial Processes and Products Guido Sonnemann, Michael Tsang, Marta Schuhmacher, 2018-10-10 Life cycle assessment is a methodology used to evaluate the environmental impacts of a product process or service during its life cycle and risk assessment is a tool to evaluate potential hazards to human health and the environment introduced by pollutant emissions The United Nations Sustainable Development Goals call for among other objectives responsible consumption and production by decoupling environmental resource use and environmental impacts from economic growth and human well being Life cycle assessment and risk assessment are both analytical system approaches that allow scientists and other decision makers to address these issues and objectives according to the current

understanding of environmental mechanisms This book is the first attempt to illustrate the existing interfaces between life cycle assessment and risk assessment and to indicate options for further integration of both tools The second edition Focuses on sustainability Considers new developments in life cycle assessment and environmental risk assessment over the last ten years at the international level Introduces broader concepts and discussions on integrative versus the complementary use of life cycle and risk assessments Extends the scope of integrated life cycle and risk assessments to critical raw materials Includes more case studies and discusses engineered nanomaterials Featuring contributions from leading experts Integrated Life Cycle and Risk Assessment for Industrial Processes and Products is a great reference for graduate students and professionals in environmental management and intends to catalyze communication between life cycle assessment and risk assessment experts and scientists in academia industry and governmental agencies The practical format of the book illustrated with flowcharts examples exercises and concrete applications makes it a useful manual for analyzing situations and making decisions

The Market Meets the Environment Bruce Yandle,1999 What does free market environmentalism have to say about Love Canal Cleveland s burning Cuyahogo River golf course pollution EPA s Toxic Release Inventory Requirement nonpoint source pollution and river basin associations In this revealing book Bruce Yandle has compiled eleven essays that address these concerns and provide the reader with an in depth market based analysis of evolving environmental institutions and regulations This book is essential reading for students and scholars of environmental economics politics and law

Analytical Tools for Environmental Design and Management in a Systems Perspective Nicoline Wrisberg,Helias A. Udo de Haes,Ursula Triebswetter,Peter Eder,R. Clift,2012-12-06 The aim of this book is to link demand and supply of environmental information in the field of Life Cycle Management The book is based on the results of the CHAINET concerted action financed by EU DGXII for the work period 1998 2000 and is intended to build bridges between the different scientific communities in the field of Life Cycle Management A structured approach is followed meaning that both demand and supply of environmental information are characterised after which the two are linked

Risk Assessment and Life Cycle Assessment Michael Hauschild,2000

Managing a Material World Pier Vellinga,Frans Berkhout,J. Gupta,2012-12-06 As we reach the end of the 20th century the question of how to meet human needs and preferences while safeguarding the global environment is a major concern facing humanity This book reflects the state of the art of thinking on the necessary concepts tools and instruments that are likely to help producers consumers and governments to adjust their policies and practices It covers theories and concepts practical approaches and visions of industry and government The book has been written by a team of authors that includes the most forward thinking researchers and managers on the issue It is a handbook for all those involved in decisions about product design and eco efficiency about environment and resource use policies Moreover it can serve as a handbook for all those who are studying with the aim to become involved in such issues

Towards an Environment Research Agenda A. Winnett,2002-12-13 This is the second volume of papers in the topical

area of environmental management Arising from work done by the International Centre for the Environment at the University of Bath the papers address inter disciplinary environmental themes particularly from a business and management perspective **The International Yearbook of Environmental and Resource Economics 1999/2000** Henk

Folmer,Thomas H. Tietenberg,Tom Tietenberg,2000 This major annual publication is an authoritative state of the art survey of current issues in environmental and resource economics written by the leading academics in the field The discipline of environmental and resource economics has undergone a rapid evolution over the past three decades with the early literature focusing mainly on valuation and the design of policy instruments to correct externalities and encourage optimal resource exploitation In the past few years the field has broadened its scope by making numerous links with other disciplines in economics as well as the natural and physical sciences As a result there has been an explosion in the literature which has made it increasingly difficult to keep up with developments in the field The Yearbookcuts through this by focusing on the principal issues of current interest In this edition experts in their specific field consider the problems of the monitoring and enforcement of environmental policy and examine possible voluntary approaches to environmental protection Topics examined include policies to counter tropical deforestation the analysis of transportation and environmental policy models of climate change control environmental labelling and the use of cost benefit analysis The Yearbookwill provide economists scholars and practitioners working in environmental and resource economics with a comprehensive overview of the up to date issues written by the leading international scholars **Proceedings of the ... IEEE International Symposium on**

Eco-labelling ,1997 *The Regulation of Product Standards in World Trade Law* Ming Du,2020-11-12

This monograph has two central purposes The first is to provide a critical analysis of how governmental private and hybrid product standards are regulated in the GATT WTO legal framework The second purpose is to explore both positively and normatively the impact that WTO disciplines may have on the composition function and decision making process of various standard setting bodies through the lens of a series of selected case studies including the EU eco labelling scheme ISO standards and private standards such as the FSC The book analyses what role if any the WTO may play in making product standards applied in international trade embody not only technological superiority but also substantive and procedural fairness such as deliberation representativeness openness transparency due process and accountability Whilst it has been long recognised that voluntary product standards drawn up by both governmental and non governmental bodies can in practice create trade barriers as serious as mandatory governmental regulations a rigorous and systematic inquiry into the boundary relevance and impact of WTO disciplines on product standards is still lacking Providing a lucid interpretation of the relevant WTO rules and cases on product standards this book fills this significant gap in WTO law literature Definitive and comprehensive this is an essential reference work for scholars and practitioners alike
