Guises Of Modesty:

Humor and Irony in Nineteenth-century German Women's Writing Helen Chambers, 2007 Brings to light unsuspectedly rich sources of humor in the works of prominent nineteenth century women writers Nineteenth century German literature is seldom seen as rich in humor and irony and women's writing from that period is perhaps even less likely to be seen as possessing those qualities Yet since comedy is bound to societal norms and humor and irony are recognized weapons of the weak against authority what this innovative study reveals should not be surprising women writers found much to laugh at in a bourgeois age when social constraints particularly on women were tight Helen Chambers analyzes prose fiction by leading female writers of the day who prominently employ humor and irony Arguing that humor and irony involve cognitive and rational processes she highlights the inadequacy of binary theories of gender that classify the female as emotional and the male as rational Chambers focuses on nine women writers Annette von Droste Hülshoff Ida Hahn-Hahn Ottilie Wildermuth Helene Bielefeld Marie von Ebner-Eschenbach Ada Christen Clara Viebig Isolde Kurz and Ricarda Huch She uncovers a rich seam of unsuspected or forgotten variety identifies fresh avenues of approach and suggests a range of works that merit a place on university reading lists and attention in scholarly studies Helen Chambers is Professor of German at the University of St Andrews Scotland UK

Landmarks in German Women's Writing Hilary Brown, 2007 This volume focuses on twelve women writers from the Middle Ages to the present day who have made a major contribution to German literature The essays place the writers in the context of their period and examine how their position as women affected what they wrote and the reception of their texts

Gender and Politics in Austrian Fiction Ritchie Robertson, Edward Timms, 1996 This volume of essays on Austrian fiction compiled at a time when Austria is forming stronger links within the European Union illustrates a transition from traditional preoccupations with character differences between Austrian and German literature to wider concerns of politics and gender Fictional treatments of such issues as male homosexuality problems in feminism the representation of women in male authored texts and anti war protest are examined both in well known novels and in little known works by underrated authors Many of the authors discussed have received insufficient recognition because they do not fall within a familiar canon of German literature The specialised research involved in compiling this material is accessible through a series of book reviews included at the end of the volume which range in subject area from the life of an eighteenth century soldier in the Habsburg service to the continuing discussion on Austrian identity

Shame, Modesty, and Honor in Islam Ayang Utriza Yakin, Adis Duderija, An Van Raemdonck, 2023-12-28 With a particular emphasis on definitions continuities and change this edited volume examines the historical role and function of haya or feelings of shame modesty and honor in Islamic theology and law and explores contemporary Muslims' engagements with the concept The book explores various conceptions of haya and the practices associated with the concept in both Muslim majority and minority contexts The empirically rich contributions reveal how haya is socially constructed in varying social

and cultural environments across the globe From medieval Islam to the modern day this book demonstrates the importance of haya and its temporal and spatial transformations

Joining Creation's Praise Brian Brock,2025-08-19 In the beginning God created Thus begins the Bible s story of a long conversation between God and creatures one in which humans are often the least edifying contributors They need to learn what it means to confess themselves creatures if they are to begin to understand what it means to be human and how to live Joining Creation s Praise a major statement by a leading Christian ethicist shows how confessing that we are creatures deeply reshapes every aspect of Christian thinking and living Human beings are made to embody Christ s image in the world not as dominators but as conduits of divine life In this comprehensive yet clear volume of theological ethics Brian Brock follows the first few chapters of Genesis in order to discover the things that the sages of Israel took to be crucial for the ethical life of human beings among other creatures in God s world Informed by theological rigor and careful exegesis the many ethical reflections in this volume allow an ancient wisdom to shed fresh light on very postmodern ethical questions about conversion life with God knowledge and wisdom dominion Sabbath vocation economics human dignity our relationship with the rest of creation sexuality marriage family sin death and politics

Secular Powers Julie E. Cooper,2024-05-31 Secularism is usually thought to contain the project of self deification in which humans

attack God's authority in order to take his place freed from all constraints Julie E Cooper overturns this conception through an incisive analysis of the early modern justifications for secular politics While she agrees that secularism is a means of empowerment she argues that we have misunderstood the sources of secular empowerment and the kinds of strength to which it aspires Contemporary understandings of secularism Cooper contends have been shaped by a limited understanding of it as a shift from vulnerability to power But the works of the foundational thinkers of secularism tell a different story Analyzing the writings of Hobbes Spinoza and Rousseau at the moment of secularity's inception she shows that all three understood that acknowledging one's limitations was a condition of successful self rule And while all three invited humans to collectively build and sustain a political world their invitations did not amount to self deification Cooper establishes that secular politics as originally conceived does not require a choice between power and vulnerability Rather it challenges us today as then to reconcile them both as essential components of our humanity **Women of India** Otto Rothfield,1928

Wittgenstein Michael Luntley,2015-05-26 In this provocatively compelling new book Michael Luntley offers a revolutionary reading of the opening section of Wittgenstein's Philosophical Investigations Critically engages with the most recent exegetical literature on Wittgenstein and other state of the art philosophical work Encourages the re incorporation of Wittgenstein studies into the mainstream philosophical conversation Has profound consequences for how we go on to read the rest of Wittgenstein's major work Makes a significant contribution not only to the literature on Wittgenstein but also to studies in philosophy of language **Selections from the Scottish Philosophy of Common Sense** George Alexander Johnston,1911 *Middlemarch in the Twenty-First Century* Karen Chase,2006 Presents a collection of essays that address the questions which Middlemarch poses *Homiletic Review* ,1906 [Human Sexuality](#) Joseph Richardson Parke,1906
