Gulf War Did Not Take Place:

The Gulf War Did Not Take Place Jean Baudrillard, 1995 In a provocative analysis written during the unfolding drama of 1992 Baudrillard draws on his concepts of simulation and the hyperreal to argue that the Gulf War did not take place but was a carefully scripted media event a virtual war Patton's introduction argues that Baudrillard more than any other critic of the Gulf War correctly identified the stakes involved in the gestation of the New World Order

The Gulf War Did Not Take Place Jean Baudrillard, 2006 *The Gulf War Did Not Take Place* Jean Baudrillard, 2009 *The Jean Baudrillard Reader* Steve Redhead, 2008 Jean Baudrillard 1929-2007 was a controversial social and cultural theorist known for his trenchant analyses of media and technological communication Belonging to the generation of French thinkers that included Gilles Deleuze Jean-François Lyotard Michel Foucault and Jacques Lacan Baudrillard has at times been vilified by his detractors but the influence of his work on critical thought and pop culture is impossible to deny many might recognize his name from The Matrix movies which claimed to be based on the French theorist's ideas Steve Redhead takes a fresh look at Baudrillard in relation to the intellectual and political climates in which he wrote Baudrillard sought to produce a theory of modernity but the modern world of the 1950s was radically different from the reality of the early twenty-first century Beginning with Baudrillard's initial publications in the 1960s and concluding with his writings on 9/11 and Abu Ghraib Redhead guides the reader through Baudrillard's difficult texts and unorthodox views on current issues He also proposes an original theory of Baudrillard's relation to postmodernism presenting the theorist's work as non-postmodernist after Bruno Latour's concept of non-modernity Each section of the Reader includes an extract from one of Baudrillard's writings prefaced by a short bibliographical introduction that places the piece in context and puts the debate surrounding the theorist into sharp perspective The conflict over Baudrillard's legacy stems largely from the fact that a comprehensive selection of his writings has yet to be translated and collected into one volume The Jean Baudrillard Reader provides an expansive and much needed portrait of the critic's resonant work

Bell, Robert M. Ficociello, 2017-10-19 Are we inside the era of disasters or are we merely inundated by mediated accounts of events categorized as catastrophic America s Disaster Culture offers answers to this question and a critical theory surrounding the culture of natural disasters in American consumerism literature media

film and popular culture In a hyper mediated global culture disaster events reach us with great speed and minute detail and Americans begin forming interpreting and historicizing catastrophes simultaneously with fellow citizens and people worldwide America's Disaster Culture is not policy management or relief oriented It offers an analytical framework for the cultural production and representation of disasters catastrophes and apocalypses in American culture It focuses on filling a need for critical analysis centered upon the omnipresence of real and imagined disasters epidemics and apocalypses in American culture However it also observes events such as the Dust Bowl Hurricane Katrina and 9 11 that are re framed and re historicized as natural disasters by contemporary media and pop culture Therefore America's Disaster Culture theorizes the very parameters of classifying any event as a natural disaster addresses the biases involved in a catastrophic event's public narrative and analyzes American culture's consumption of a disastrous event Looking toward the future what are the hypothetical and actual threats to disaster culture Or are we oblivious that we are currently living in a post apocalyptic landscape

Race, Law and Hypercriminality Sarah Corbett-Batson, 2025-08-08 This book considers how neoliberal criminal law constructs racialised hypercriminals In a world of fake news and virtual reality where social media posts seem more real than the materiality of racial capitalism this book develops the idea of hypercriminality as a means of explaining how racial disproportionalities in the criminal legal system persist despite discourses of a post racial meritocracy Drawing on critical race theory the work of Judith Butler and Jean Baudrillard's conception of the hyperreal the book considers how neoliberal legal discourse constructs and reproduces hyperreal racialised legal subjects The simulated violent figure of the racialised gang member rioter drug dealer or sexual predator is made to appear real through legal and evidential concepts such as dangerousness or bad character The belief that this simulation is real is deployed to justify the carceral state and masks the structural and racialised violence of capitalism itself Revealing the hypercriminality of racialised legal subjects the book thus offers a timely critical legal intervention that aims to advance the urgent project of decarceration abolition and transformative justice The book will appeal to scholars and students working in the areas of criminal law and evidence criminology criminal justice socio legal studies and critical race theory

Soldier Repatriation Kaare Dahl Martinsen, 2016-04-01 Soldier repatriation from Afghanistan has impacted debate about the war This study highlights this impact with particular focus on Britain Denmark and Germany All three countries deployed soldiers soon after the 9 11 attacks yet their role in Afghanistan and the casualty rates suffered have been vastly different This book looks at how their casualties influenced the framing of the war by analysing the political discourse about the casualties how the media covered the repatriation and the burials and how the dead were officially recognised and commemorated Explaining how bodies count is not done exclusively by focusing on the political leadership and the media in the three countries the response from the men and women in Afghanistan to the official framing of the war is given particular weight Martinsen contributes to our understanding of European strategic culture by showing how countries respond to the same security challenges
