

A Critical Analysis of four voyages

لعلم شرف

'GULLIVER'S TRAVEL'S' is an acknowledged classic of English language for its unique theme, the idea of narration and the final purpose which the writer is able to achieve most befittingly. In following the voyage, Swift, no doubt, follows a tradition of his age but the vitality, fame and purpose achieved by him in this genre has rarely been equaled till present. The book has been divided into four parts, describing Gulliver's four different voyages in imaginary lands. These voyages can have an immense interest for the youth and children for the element of fun, laughter, adventure and strangeness. But this is not the end all and the chief aspects of the travels. A detailed critical analysis of the four books is required to feel the full force of Swift's writings.

1. A Voyage to Lilliput:

At the start of the first voyage we are told that Gulliver gets the job of a surgeon in the ship called 'Antelope' commanded by Captain William Pritchard. Their journey started from Bristol on the 41 of May, 1699. As had been a tradition with the 'Fantastic Voyages', ship was overtaken by a storm and Gulliver swims ashore in an exhausted condition. When Gulliver gains his sense the book attains all the elements fit for a 'CHILD CLASSIC'. The very information that human beings are six inches high, fill us with thrill and wonder. No doubt, Swift here employs imagination and fiddles with a famous travelogue material, written for the commercial success. However, any attentive reader can discern the two veins of writings going side by side. The part 1 of the book is enumerated by a plenty of comic elements that suit to the light hearted aspect of the book.

In fact, the very idea that there are human beings of the size of six inches is comic and laughs producing. A dwarf among common human beings does create laughter but a human being with the height of six inches creates laughter accompanied by wonder. The way nine hundred Lilliputians pull Gulliver and the way ladders are used to feed him with buckets are really thrilling. The huge bulk of Gulliver among the Lilliputians can be imagined by the fact that vehicles filled with meat hardly make two or three mouthfuls for Gulliver and ten vessels full of liquor make a single draught for him. One also feels amusement to know that six hundred beds are combined to make a bed for Gulliver. The confrontation of Lilliput and Blefuscu also gives an air of light heartedness to the first part of the travels. How funny and enjoyable it would have been to see a huge man capturing fifty enemy ships in one stroke. The
