Murray, 2015-09-04. Sound and taste conjugate a special relationship, and they are often presented and represented together. The linkage between music and food has been a traditional field for artists to suggest among various emotions: love and sexual desire, happiness, fear, and rebellion, as well as environmental, urban, ethnic, and class values. This multi-author book explores the interconnectedness of music and food and their meaningful relations. With a multicultural approach, chapters focus on various historical periods and world cultures. Music and food links are explored within the framework of different disciplines such as musicology, literature, anthropology, and history. General lines for a theoretical base are developed by specialists from diverse fields. ***Paul Kovi's Transylvanian Cuisine*** Paul Kovi, 1985. Kovi first learned to know and love food in his native Transylvania, a region rich in folklore and food lore. In this book, he has collected essays by Transylvanian writers illustrating the history of Transylvanian cuisine and extolling the more poetic aspects of its cooking. Then he presents recipes collected from villages and hearths to rediscover the lost art of the original Transylvanian cooking and flavors.

***Cooking through History*** Melanie Byrd, John P. Dunn, 2020-12-02. From the prehistoric era to the present, food culture has helped to define civilizations. This reference surveys food culture and cooking from antiquity to the modern era, providing background information along with menus and recipes. Food culture has been central to world civilizations since prehistory. While early societies were limited in terms of their resources, and cooking technology, methods of food preparation have flourished throughout history, with food central to social gatherings, celebrations, religious functions, and other aspects of daily life. This book surveys the history of cooking from the ancient world through the modern era. The first volume looks at the history of cooking from antiquity through the Early Modern era, while the second focuses on the modern world. Each volume includes a chronology, historical introduction, and topical chapters on foodstuffs, food preparation, eating habits, and other subjects. Sections on particular civilizations follow, with each section offering a historical overview, recipes, menus, primary source documents, and suggestions for further reading. The work closes with a selected general bibliography of resources suitable for student research. ***Hungarian Heritage Review***, 1991      ***Time Out Budapest*** Editors of Time Out, 2011.
