Personality Types Don Richard Riso,Russ Hudson,1996-10-29 The definitive guide to using this ancient psychological system to gain self knowledge and achieve personal growth now expanded and revised The Enneagram is an extraordinary framework for understanding more about ourselves No matter from which point of view we approach it we discover fresh conjunctions of new and old ideas So writes Don Riso in this expanded edition of his classic interpretation of the Enneagram the ancient psychological system used to understand the human personality In addition to updating the descriptions of the nine personality types Personality Types Revised greatly expands the accompanying guidelines and for the first time

uncovers the Core Dynamics or Levels of Development within each type This skeletal system provides far more information about the inner tension and movements of the nine personalities than has previously been published This increased specificity will allow therapists social workers personnel managers students of the Enneagram and general readers alike to use it with much greater precision as they unlock the secrets of self understanding and thus self transformation No Enneagram teachers I've come across offer such a rich and dynamic picture of how each personality type expresses itself in the world and the process by which we can move through progressive stages of psychological and spiritual growth Tony Schwartz author of *What Really Matters Searching for Wisdom in America* *The Occult in Russian and Soviet Culture* Bernice Glatzer Rosenthal, 1997 A comprehensive account of the influence of occult beliefs and doctrines on intellectual and cultural life in twentieth century Russia **Understanding the Enneagram** Don Richard Riso, Russ Hudson, 2000 A practical and simplified guide this revised edition explains how to apply the personality types of the Enneagram in one's daily life *Reflections on Gurdjieff's Whim* Keith A.
