The Indian Journal of Labour Economics, 2003 *The Politics of Common Sense* Aasim Sajjad Akhtar, 2018-02-01 This work offers a refreshingly different perspective on Pakistan it documents the evolution of Pakistan's structure of power over the past four decades In particular how the military dictatorship headed by General Zia ul Haq 1977-1988 whose rule has been almost exclusively associated with a narrow agenda of Islamisation transformed the political field through a combination of coercion and consent production The Zia regime inculcated within the society at large a common sense privileging the cultivation of patronage ties and the concurrent demeaning of counter hegemonic political practices which had threatened the structure of power in the decade before the military coup in 1977 The book meticulously demonstrates how the politics of common sense has been consolidated in the past three decades through the agency of emergent social forces such as traders and merchants as well as the religio political organisations that gained in influence during the 1980s
