The Cyprus Frenzy of 1878 and the British Press Marinos Pourgouris,2018-11-23 In June of 1878 the British Empire acquired the small Mediterranean island of Cyprus after a secret agreement with the Ottoman Empire The occupation of Cyprus was officially announced by the British government about a month later and what followed was an unprecedented mania with the island which manifested itself through the publication of dozens of books and articles the composition of poems novels and music pieces the staging of operas and ballets the appearance of dozens of advertisements in newspapers the dispatch of special correspondents to the island the announcement of forthcoming tours etc This book examines the Cyprus Frenzy of 1878 and the way it was expressed in both major and provincial newspapers in Victorian Britain It follows the six main special correspondents who were commissioned to cover the occupation and who traveled to the island for that purpose Archibald Forbes The Daily News St Leger Algernon Herbert The Times John Augustus O Shea The London Evening Standard Edward Henry Vizetelly The Glasgow Herald Samuel Pasfield Oliver The Illustrated London News and Hepworth Dixon for several provincial newspapers What is pertinent in the investigation of Victorian journalistic practices is the relationship between these correspondents and the military establishment which was tasked with the duty of forming the

first British government on the island In this context General Garnet Wolseley who served as the island's first High Commissioner and his famous clique of associates are central characters in the story of Cyprus colonization The book further considers the role of advertisements in propagating colonial discourse and it examines Letters to the Editor published in major newspapers of the time as a tool in the investigation of the Victorian readers reception and response to the occupation By concentrating on the history of a very particular event the British occupation of Cyprus in 1878 this book aspires to scrutinize colonial practices through a close examination of the mechanisms that they put in motion the networks they utilize and the fantasies they stir

Plotting to Stop the British Slave Trade Jane Aptekar Reeve, 2019-12-09 This is an innovative biography about an adventurous game changing traveller in Africa during the West's Enlightenment period when the American and French Revolutions occurred James Bruce was not what he seemed to be I can now reveal that although he was notorious in his own day for a variety of interesting reasons including his alleged theft of his assistant's art work he was basically an espionage agent working with a clique of powerful mostly British persons whose secret agenda was to eradicate slaving Bruce undertook a subversive mission to investigate slave trafficking across the Mediterranean and Red Seas as well as the Atlantic in order to support his friends drive to destroy the principal source of their own country's wealth This was achieved in 1807 Like Bruce himself in my book I address neglected aspects of the ancient habit of slavery and the related abuse of particularly women Bruce's Travels 1790 is a delightful although massive read Therefore I sketch the geo historical and faith background to Bruce's work convey the feel of his book and add to the known facts of his life a great deal of newly discovered material This includes the international range of Bruce's friends and collaborators from Rome to Cairo to Bethlehem in the newly constituted U S A Change is agonisingly slow to take hold It was possibly because Bruce only wrote about Africa that he has been trivialised and his biography has never previously been fully responsibly researched
