## He Who Is A Study In Traditional Theism:

**He Who Is** E. L. Mascall, Eric Mascall, 2023-12-20 E L Mascall in his introduction to the 1966 edition of *He Who Is* writes that one of its main purposes is to argue that the real function of the famous Five Ways of St Thomas Aquinas was not to provide five independent arguments for the existence of God from finite beings but to manifest by five different expositions the character of finite beings as radically dependent on a transcendent self-existent infinite being. Subjects discussed along the way include creation mysticism the relation between reason and revelation the doctrine of analogy and the non-Christian religions and an attempt is made to find the true status of religious experience as an element in rational theism. This Angelico Press edition contains a new foreword by The Rev Dr Robert MacSwain who writes that I can think of at least three reasons why *He Who Is* should still be read by a new generation of theological students. First despite its age it remains a substantial contribution to the study of Thomism. Second its primary themes of the existence and nature of God are of perennial and vital interest. Third it exemplifies the ecumenical endeavor that was at the heart of Eric Mascall's life and work namely that of an Anglican theologian seeking to learn not only from members of his own communion but from Roman Catholic and Protestant thinkers and from the Orthodox tradition as well.

**He who is** Eric L. Mascall, 1970 *He who Is. A Study in Traditional Theism* E. I. Mascall, 1945 **He who is** Eric Lionel Mascall, 1943 *He who Is. A Study in Traditional Theism*. (1943) E. L. Mascall, 1945 *Dictionary of Twentieth-Century British Philosophers* Stuart Brown, 2005-06-01 This is a two-volume work with entries on individuals who made some contribution to philosophy in the period 1900 to 1960 or soon after. The entries deal with the whole philosophical work of an individual or in the case of philosophers still living their whole work to date. Typically the individuals included have been born by 1935 and by now have made their main contributions. Contributions to the subject typically take the form of books or journal articles but influential teachers and people otherwise important in the world of philosophy may also be included. The dictionary includes amateurs as well as professional philosophers and where appropriate thinkers whose main discipline was outside philosophy. There are special problems about the term British in the twentieth century partly because of human migration partly because of decolonialization and the changing denotation of the term. The intention has been to include not only those who were British subjects at least for a significant part of their lives even if they mostly lived outside what is now the U.K. but also people who spent a significant part of their lives in Britain itself irrespective of their nationality or country of origin. In the first category are included for instance a number of people who were born and educated in Britain but who subsequently taught in universities abroad. In the second category are included those who were born elsewhere but who came to Britain and contributed to its philosophical culture.

*The Christology of John Macquarrie* Vernon L. Purdy, 2009 *The Christology of John Macquarrie* comprehensively scrutinizes the life and writings of Scottish-born systematic theologian and philosopher John Macquarrie 1919-2007 in an attempt to comprehend and evaluate his Christology. The author examines the people e.g. Heidegger, Schleiermacher, the philosophical and theological

positions and the writings that formed Macquarrie's thinking. One major influence was his commitment to modern critical theology including the premise that in the modern world the only acceptable Christological tenets are those that can stand up to the scrutiny of modern critical reasoning. The work concludes that this commitment profoundly shaped Macquarrie's theology especially his Christology. The book also discusses Macquarrie's evaluation and criticisms of the Christology of other theologians e.g. Kierkegaard, Moltmann, Pannenberg and others concluding that Macquarrie's understanding of the Christian faith and the person of Jesus Christ is consonant with modern liberal Anglo-Catholicism. This idea furthers the argument that Macquarrie's reluctance to accept traditional incarnational categories suggests that his Christology is a modern form of Adoptionism.

*Philosophy of Religion: The Historic Approaches* Max Charlesworth, 1972-06-18. Substantially revised and expanded. This is a new edition of a core text for undergraduates, students and all those interested in philosophy and religion.

**Fifty Years of Philosophy of Religion: A Select Bibliography (1955-2005)** Andy Sanders, Kristof de Ridder, 2007-06-28. The bibliography lists about 10,000 titles of monographs, collections and articles in the field of the philosophy of religion and philosophical theology that appeared between 1955 and 2005. The majority of them are in the English language but publications in German, Dutch and French are listed as well. Though it is not claimed to be exhaustive, the bibliography offers a fairly representative survey of scholarly work on the main topics of interest. Publications have been systematically classified according to eleven main categories: Introductions, Surveys and Historical Issues, Part I Religious Language, Part II Religious Experience, Part III Religious Epistemology, Part IV Theism, Part V Hermeneutics, Part VI Religion and Science, Part VII Religion and Aesthetics, Part VIII Religion and Morality, Part IX Religious Pluralism, Part X and Feminist Philosophy of Religion, Part XI. Part III has been subdivided into Religious Experience and Mystical Experience, Part VII into The Concept of God, arguments for The Existence of God, The Problem of Evil and Atheism, and Part VII into General and Historical Issues, Theological Issues and implications of Modern Physics, Cosmology and Biology. The bibliography will particularly be useful to scholars, teachers and students in the philosophy of religion, philosophical theology and systematic theology as well as to those who are interested professionally or otherwise in the results of academic scholarship in those fields.

The New Cambridge Bibliography of English Literature: Volume 4, 1900-1950 George Watson, I. R.

Willison, 1972-12-07. More than fifty specialists have contributed to this new edition of volume 4 of *The Cambridge Bibliography of English Literature*. The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis, articulation and coordination that it has been retained in all its essentials for the new edition. The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re-shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries.

**The Pastor's Library** Robert A. Yost, 2017-09-21. In the spirit of Cyril Barber's classic work from the 1970s *The Minister's Library*, Robert Yost provides

students and pastors with expert guidance on building a working ministerial library From Old and New Testament languages lexical aids and grammatical tools to commentaries and theologies as well as pastoral resources Yost is a trustworthy guide through the multiplicity of books that seem to just keep rolling off the presses Far more than just a guide to commentaries as are so many works today this resource is a balanced pastoral tool for pastors and students who are overwhelmed by the proliferation of literature in the fields of biblical and pastoral studies      **Milton's Complex Words** Paul

Hammond,2017-11-17 Every major poet or philosopher develops their own distinctive semantic field around those terms which matter most to them or which contribute most profoundly to the imagined world of a particular work This book explores the specific meanings which Milton develops around key words in Paradise Lost Some of these are theological or philosophical terms e g evil grace reason others are words which shape the imagined world of the poem e g dark fall within yet others are small words or even prefixes which subtly move the argument in new directions e g if not re Milton seems to expect his readers to be alert to the special semantic field which he creates around such words often by infusing them with biblical and literary connotations and activating their etymological roots alert also to the patterns created by the repetitions of such words and particularly to their diverse use and often their blatant misuse by different characters To understand the migrations and malleability of key words is part of the education of Milton s reader      The Oxford Dictionary of the Christian

Church Andrew Louth,2022-02-17 Uniquely authoritative and wide ranging in its scope The Oxford Dictionary of the Christian Church is the indispensable reference work on all aspects of the Christian Church It contains over 6 500 cross referenced A Z entries and offers unrivalled coverage of all aspects of this vast and often complex subject from theology churches and denominations patristic scholarship and the bible to the church calendar and its organization popes archbishops other church leaders saints and mystics In this new edition great efforts have been made to increase and strengthen coverage of non Anglican denominations for example non Western European Christianity as well as broadening the focus on Christianity and the history of churches in areas beyond Western Europe In particular there have been extensive additions with regards to the Christian Church in Asia Africa Latin America North America and Australasia Significant updates have also been included on topics such as liturgy Canon Law recent international developments non Anglican missionary activity and the increasingly important area of moral and pastoral theology among many others Since its first appearance in 1957 the ODCC has established itself as an essential resource for ordinands clergy and members of religious orders and an invaluable tool for academics teachers and students of church history and theology as well as for the general reader      *Trinitarian Personhood* Bill Ury,2002-02-01 The concept of the person is a crucial yet elusive component in the development of Western thought Few concepts are as replete with definitional difficulty Equally important is the application of a proper definition to all major Christian doctrinal commonplaces This work recognizing the insufficiency of modern theology to offer a cogent concept of person proposes a thorough historical and theological evaluation of Trinitarian

personhood presented in three critical paradigm shifts by which one can measure the development of the idea of true personhood presented The three watershed eras of discernment of divine personhood presented are seen here as first the Cappadocian position of the mutual indwelling perichoresis of the divine persons is contrasted with Augustine's view of the place of relations in defining divine persons Second the ideas of Richard of St Victor whose *caritas consummata* and its relational implications met the nemesis of the Thomistic category of subsistent relations And last as an example of this important discussion in modernity the German Heribert Mühlen's dynamic phenomenological approach to Trinitarian personhood is offered as a means of countering the implicit modalisms of Barth and Rahner If the personhood of God is in essence Being in Another then Christianity must apply that ontology to all sectors of reality to be fully Christian
