

# Health is Wealth

Someone has correctly said that 'if health is gone everything is gone'. Life loses interest, in case you are deprived of health. You enjoy neither food nor the world. Even spending time joyfully becomes a big problem. A healthy person (whether rich or poor) lives happier and peaceful life than any rich person having a diseased body. We can, therefore, say that the real wealth of a man is his health.

Health is not merely the absence of disease and infirmity but a state of complete physical, social and mental wellbeing. Health is thus a level of functional efficiency of living beings and the general condition of a person's mind, body and spirit, meaning it is free illness, injury and pain. If you are strong and healthy you can be a shining example to others and teach them how to achieve vibrant health.

To achieve good health, people should follow a healthy lifestyle. People who are not involved in the healthy lifestyle may suffer a range of health disorders like coronary, high blood pressure, heart disease, stroke, diabetes, high cholesterol, kidney problems, liver disorders and so on. To achieve good health, you need to eat healthy and exercise regularly. You should also get enough sleep and maintain a healthy weight.

Health is the greatest blessing of god. Good health is a condition of good fortune. To maintain good health, healthy living and a thoughtful life is essential. We should take care of our health and live life. We should always take a simple and balanced diet. Exercise is very important for
