Live an Optimal Life Anthony Ekanem,2016-06-30 Many people speak about their problems in life In fact this is one of the hottest topics of conversations It doesn't really matter where you meet someone all it takes is a friendly smile to start pouring out your life's woes to them Everyone does the same The result is that no one really knows how happy one is Since everyone is talking about their miseries it does seem that no one around is leading an optimal life This is where the problem lies We think that the term optimal life should have a definition We think that we should be able to peg down someone's life entirely and say Ah now his is an optimal life But it doesn't happen that way You might think that someone with a lot of money or someone with a beautiful wife must have an optimal life But when you get to know them better you begin to see the problems that lie behind the exterior facade of theirs and you realize that their life is not what you thought it to be There's a great saying that If everyone were to throw their problems in a pile and see everyone else's they would grab their own right back This is true We think the neighbours are always happier than we are We think they are leading a more optimal life than we are But if we were really to sit down and make comparisons quite likely we would find our problems to be the least So where are we heading with this The point here is that our lives are only as optimal as we want them to be We have it entirely in our hands how beautiful we want to make our lives If we want to sit and brood that life is toying with us in every way possible it is But if we plan to take things in our hands and not let life jerk us around it won't We have to plan just how much control we want to give our lives An optimal life is a very individualistic thing For us an optimal life would be one in which we are completely contented and satisfied with whatever we have *School Life* ,1921 **Proceedings of the Conference of the**

Frits de Lange,2015-04-27 Is loving later life possible In our youth obsessed culture nobody enjoys growing old We normally fear our own aging and generally do not love old people they remind us that death is inescapable the body frail and social status transitory In Loving Later Life Frits de Lange shows how an ethics of love can acknowledge and overcome this fear of aging and change our attitude toward the elderly De Lange reframes the biblical love command this way We must care for the aging other as we care for our own aging selves We can encourage positive self love by embracing life as we age taking good care of our own aging bodies staying good friends with ourselves and valuing the last season of life When we cultivate this kind of self love we are released from our aversion to growing old and set free to care about others who are aging our parents our relatives and others in their final season of life
