Major and Serious Crime Investigations Richard Carr,Colin Davies,2025-02-28 This text explores the concept of major and serious crime investigations as it takes the reader through the fundamental elements of investigative theory and practice that are relevant to this area of criminality Unlike other texts that concentrate on either bespoke areas of criminality such as homicide

terrorism or trends in concepts such as county lines this book recognises that the reader will be new to investigative study with little practitioner experience to anchor their learning By using the latest evidence based policing knowledge and critical thinking it explores the concepts of major and serious crime detailing key areas of legislation and how investigative strategies and decision making can influence successful outcomes Other topics examined in this text is the key areas of risk for major and serious crime investigations the impact on investigators the concept of disclosure investigative interviewing and how civil orders designed to tackle this type of criminality can provide a successful alternative to prosecution Both students and practitioners can find this book useful with this book s contemporary approach of using case studies and contemporary investigative examples relevant to the topic This book brings together academic theory and operational understanding of major and serious crime that provides learners with an easy to follow guide that they can keep returning to throughout their career

**Reasons to Doubt** Carolyn Hoyle,Mai Sato,2019-01-10 This book reveals what happens to applications for post conviction review when those in England Wales and Northern Ireland who believe they are wrongfully convicted apply to the Criminal Cases Review Commission the only body that can refer a case back to the Court of Appeal once appellants opportunities for direct appeal are exhausted While the Court is obliged to hear all such referrals the Commission can only refer a case where it believes there is a real possibility that the Court will quash the conviction The first empirical study of all stages of decision making within the Commission this book starts from the premise that the test applied by the Commission the real possibility test is not inflexible Though created by statute and refined through case law it must be determined on a case by case basis drawing too on cultural and structural variables alongside fresh evidence gathered by the Commission Through in depth analysis of case files and interviews Hoyle and Sato scrutinize the Commissions operational practices its working rules and assumptions considering how these influence its understanding of the real possibility test Situating their rich empirical data within a framework of the Commissions social organizational and legal contexts this book demonstrates that in its open ended investigations there is considerable scope for discretion for thorough exploration of all possible avenues or for choosing a more superficial consideration of a case It emerges that while structured internal guidance drawing heavily on Court jurisprudence shapes decision making creating consistency in approach there remains some variability across cases over time that can be

accounted for by the different professional backgrounds and personalities of Commission staff      **Criminal Judicial Review**

Piers von Berg, 2014-09-25 This is a comprehensive guide to challenging decisions of criminal courts and public bodies in the criminal justice system using judicial review Written by a team of criminal and public law practitioners it considers claims for judicial review arising in the criminal justice system which now represent a distinct area of public law These claims are set apart by special considerations and rules for example on the limits of the High Court's jurisdiction or the availability of relief during ongoing proceedings Criminal practitioners may lack the background to spot public law points Equally public law specialists may be unfamiliar with criminal law and types of issues that arise Criminal Judicial Review is intended as a resource for both The book deals with the principles case law remedies and the practice and procedure for obtaining legal aid and costs It will be of assistance to any practitioner preparing or responding to judicial review claims involving the following The Police and the Crown Prosecution Service Magistrates courts the Crown Court and Coroners Prisons and the Parole Board Statutory bodies such as the Independent Police Complaints Commission and the Legal Aid Agency Claimants who are children young persons or have mental disorders The international dimension including extradition proceedings and European Union law Practical considerations such as CPR Part 54 remedies legal aid and costs From the Foreword by The Rt Hon Lord Judge The book is offered in clear and simple style focussing less on esoteric theoretical considerations and more on the practical needs of the practitioner It brings together materials relating to public law with which a criminal specialist may be less well informed and material relevant to the criminal justice processes which may not be immediately apparent to the public law specialist It will assist with the preparation of arguments and also enable submissions which are unarguable to be discarded It will therefore provide valuable guidance in this broad and developing area of practice      *English Legal System Concentrate*
